Chairman's Statement

Dear Shareholders,

The year from July 2020 to June 2021 we expected to be one of activity across the board for us, and so it was. We progressed exploration in every principal country of operation, and had it not been for the continuance of the travel and work restrictions imposed by various countries in response to the Covid-19 pandemic of early 2020, those advances would have been greater and faster.

This has culminated in three important drill programmes that have kept us constantly busy since the end of June 2021. We were drilling first for copper and cobalt in Congo, then also for gold in Kenya. Just as the first phase of drilling in Kenya ended in December 2021, diamond drilling for gold began in Australia. We expect positive results from all three programmes, which will come over the next few weeks.

If we divide the Company's exploration activities into those conducted on Legacy Exploration Assets and activities on New Exploration Assets, the progress over the last eighteen months and our success in creating a project pipeline is more easily explained. Progress on the Legacy Exploration Assets was slowed in various ways by Covid-19 factors, though not critically. The New Exploration Assets were the direct product of opportunities that arose as a result of Covid-19, so in this respect the virus worked in our favour, but the impact is lagged and will be felt more fully during the course of 2022.

ACTIVITY ON LEGACY EXPLORATION ASSETS

During the year we conducted extensive geophysics over key licenses in the Congo and Kenya, in the latter country with our own trained crew and equipment, and were then able to start drill programmes in both countries as well as to plan future work. These programmes have only recently concluded, and we end the calendar year awaiting final laboratory results from Congo and from the first half of the samples sent from Kenya.

Kenya

In Kenya, following the restoration of our licenses in August 2020, we repaired the camp and vehicles, recruited a new team in Migori and in London, and with them and with consultants CSA Global Ltd, shared and discussed data on numerous Zoom calls as we prepared to announce in February 2021 a new Estimated Mineral Resource under the JORC 2012 Code of 723,000 oz of Gold at 1.49 grams per ton.

The detailed work done in revisiting our data on the Kenya licenses, then 3.18 terabytes and now 3.65 terabytes, fed into the targeting for the 2,000 metre initial reverse circulation drill programme which we began shortly after the June year end after completing an Environmental Impact Assessment. This programme has just finished and a new EIA is already being carried out for the next phases of exploration planned for 2022.

Congo

In the Democratic Republic of Congo, we followed a similar path, completing geophysics and then starting just before the end of the Financial Year what became a 2,300 metre reverse circulation drill programme. In this case the targets were copper and cobalt.

ACTIVITY ON NEW EXPLORATION ASSETS

Australia

The initial period of lockdown in 2020 initially froze much of our activity, but by eliminating travel time and regular hours it provided us with the leisure to engage in strategic thinking. We studied opportunities including an intensive analysis of the Victoria Goldfields in Victoria, Australia, produced a white paper, and concluded that a rising gold price and an increase in exploration interest would lead to new discoveries in underexplored and historically rich gold terrain that could benefit from the application of new techniques. We applied for substantial acreage centred on the key historic mining district of Ballarat; our applications sometimes beating other applications only by a day or two, and were just in time to take a strategic position that only a few weeks later would have already have become impossible. There is no doubt that the restrictions on travel in Australia slowed the competition, and provided us with a window that we were able to take full advantage of.

Because of the initial perceived risk in this step into a new area, we teamed up with Power Metal Resources PLC in a joint venture.

By September 2020 we had an independent geological report prepared, but due to the extremely rigorous lockdowns and home working by officials in Victoria, the process of license grant was not as rapid as we hoped, and as gold drifted off the July 2020 high of \$2115 per ounce to just under \$1800, the pandemic excitement surrounding gold stocks dissipated. Our first grants came in February 2021, totalling 215 square kilometres, and only in the last few days has an updated geological report been completed and the total acreage of granted licenses gone above 1,000 sq km to 1,501 sq km.

An excellent local team of geologists has been assembled by Dave Holden, an experienced geologist and manager living on the license, and previously known to us, and the detailed exploration work they have been doing has enabled us already to identify promising drill-ready targets.

A 2,000 metre drilling campaign began on 13 December 2021 on the first of three initial targets, and progress continues towards a listing for New Ballarat Gold Corporation PLC in the New Year.

Côte d'Ivoire and Burkina Faso

At a time when both Kenya and the DRC were on the UK's Red List for travel, meaning that a ten-day sojourn in a Government-run hotel would be required on return to London, we decided on the alternative of revisiting Abidjan to see if it was worth breathing new life into our former gold ventures there. Considerably assisted by the fact that our recently recruited database manager and geologist in London, of Burkinabe extraction, had been born and worked in the Côte d'Ivoire, we made contact with experienced geologists in both countries, and from among them found suitable hard working and conscientious local partners and managers. After writing on our return a white paper, we concluded that the West African Gold belts were still immature gold plays that presented a very great opportunity if one were working with experienced partners. We established new local subsidiaries, and having drawn up and analysed short lists made applications for licenses we believe to be highly prospective for commercial discoveries. We expect early grant of many of these.

OTHER ASSETS

Our strategic investments included listed holdings in manganese producer Jupiter Mines Ltd (ASX:JMS), diversified explorer Power Metal Resources PLC (AIM:POW), and iron ore developer Juno Mines Ltd (ASX:JNO), as well as royalty interests in Mt Ida (iron project, Australia), various gold projects, and the El Limon gold mine in Colombia. An unlisted holding whose value started to become apparent was Elephant Oil Corporation, formerly Elephant Oil Ltd, which holds onshore oil acreage in Benin and Namibia, and which aims to be listed on NASDAQ in early 2022.

PERSONNEL, ESG, AND ADMINISTRATION

We embrace the new emphasis worldwide on companies showing environmental and social neighbourliness, and ensuring they offer a career open to the talents that offers training where it is needed, widens experience where it is lacking, and gives responsibility to the capable without consideration of cultural background. We embrace it because we have always tried to behave in these ways, for business as well as ethical reasons. Almost all of our first hires both in Australia and in Kenya have been environmental and community relations officers, in Kenya now supplemented by an expert adviser on the Mining Law and Governmental relations. We know how key it is now for what is sometimes termed a social license to operate, that we are not only doing the right things but are doing them in a quite visible way.

The key to our operations is local management. In Australia we are Australian, with a local and very competent and well-regarded team built by the New Ballarat Gold Corporation CEO. In Kenya our management is headed by our able Kenyan Project Manager who has built the local team, trained our geophysics team, and works with our Kenyan Camp Manager and Kenyan geologists, so that we appear Kenyan while doing things in an international manner and to international standards. On 17 December 2021 two of our geological team were awarded their MSc degrees, a source of pride to us all. We were also proud to be told recently by a very senior and respected mining official that he held us out frequently as an example of how a company should behave, and conduct professional exploration, in Kenya.

In Congo we have not yet fully built out the team, but the nucleus now, after some earlier challenges, consists of extremely capable and reliable professionals.

In Côte d'Ivoire and Burkina Faso the local managers and our partners are chosen for their integrity, diligence, and long experience. They are working with us because they know that they and our Burkinabe manager in London will remain in key management and directorial positions as we move towards a listing on these properties.

We have worked hard with all these people in the last year, and not just on geology and community relations. We have together been setting up companies and offices and bank accounts, building a small camp in Congo, renewing and expanding the camp in Kenya, and establishing an administrative structure in Australia. We thank them all, for we know how much we owe them in what have not always been easy circumstances, and all of them have been willing to go the extra mile when required.

Year Under Review – Financial Results

In the year to 30 June 2021, reported group loss for the year was £1.689 million after a reported profit of £5.156 million in the previous year. This reflected primarily an increase in administrative and expensed project development costs during the period, after the one-off 2020 write-back of the Company's interest in the Migori Gold Project in the previous year. Dividend income received during the year dropped from £0.419 million to £0.125 million, reflecting a lower payout and ongoing reductions in Jupiter Mines Ltd holding. Group payroll and related costs increased reflecting the additional activity in Australia, Kenya, London and Congo.

We ended the June 2021 financial year with our cash supplemented by £1,581,000 in marketable investments and a holding in Elephant Oil, where we expect a listing in the New Year, held at a value of £173,846 but likely to be traded at a much higher valuation once listed.

Outlook

After a successful year in which the Company took the many challenges associated with the COVID-19 pandemic, and turned them into operational advantages, we look forward to continued nurturing of the seeds planted during the period in the year ahead. Our key Kenyan asset will remain a particular focus, as we believe we have the potential to build a large gold resource here, comparable to the better-known mines in Tanzania to the south. Red Rock remains intent on creating value for all stakeholders through development of its projects and investments, including through listings of Elephant Oil and New Ballarat Gold Corporation, and through possible sales and joint ventures as well as exploration, and we expect investors to be materially rewarded for their support over the course of 2022.

Strategic Review

Overview of the Business

The Company is listed on London's AIM market (AIM:RRR) and manages a diverse portfolio of producing and exploration stage natural resources assets, located around the world.

Business Strategy

The Company's strategy involves seeking out, assessing and investing in natural resource projects, where it can actively add value through exploration, technical development and corporate transactions.

Principal Risks and Risk Management

Exploration and development is an inherently high-risk business, outlined here are some of the primary risks identified:

Exploration Risk

The Group's business is mineral exploration and evaluation, which are speculative activities. There is no certainty that Red Rock will proceed to the development of any of its projects or otherwise realise their full value. The Group aims to mitigate this risk, when evaluating new business opportunities by targeting areas of potential, where there is at least some historical drilling or geological data available, and where leading exploration consultants believe there is strong evidence of world class mineral deposits.

Resource Risk

All mineral projects have risk associated with defined grade and continuity. Mineral Reserves and Resources are calculated by the Group in accordance with accepted industry standards and codes but are always subject to uncertainties in the underlying assumptions, which include geological projection and commodity price assumptions. This may include variations in the style of mineralisation encountered as well as the failure to achieve economic deposits.

Environmental Risk

Exploration of a project can be adversely affected by environmental legislation and the unforeseen results of environmental studies carried out during evaluation of a project. Any disturbance to the environment, during exploration, on any of the licence areas, will be rehabilitated in accordance with the prevailing local regulations.

Financing & Liquidity Risk

The Group has an ongoing requirement to fund its activities through the equity capital markets. There is no certainty such funds will be available when needed. To date the Group has managed to raise the required funds, primarily through equity placements, despite difficult markets that currently exist for raising funding in the junior mining industry. The cost of available capital may fluctuate significantly, and can include high interest rates and the requirement to offer new equity at a discount to current prices. The Company can be affected by international markets and risk appetite, and low projections of future world GDP growth may depress commodity prices and perceived future levels of demand. Supply and demand of individual commodities may also impact valuations of current and future resources and projects in the Group portfolio.

Corporate finance planning and analysis considers multiple avenues to acquire and deploy capital, including from internal sources of cash flow. Expansion of capital reserves and ongoing cost reduction efforts provide the Company with additional resilience during sector downturns.

The Directors have prepared cash flow forecasts for at least the next 12 months from the date of this report and are confident that the Company can raise additional funds through asset sales or equity funding if required. Nevertheless, in the event that the Group is unable to secure further financial resources, it may have a detrimental impact on the Group's exploration activities and viability of its exploration licences and ability to monetise and realize value from them.

Political Risk

All countries carry political risk that can lead to interruption of activity. Politically stable countries can have enhanced environmental and social risks, risks of strikes and changes to taxation, whereas less developed countries can have, in addition, risks associated with changes to the legal framework, civil unrest and government expropriation of assets. The Company has working knowledge of the countries in which it holds exploration licences and has appointed experienced local operators to assist the Company in its activities in order to help reduce possible political risk.

COVID-19

The Company recognises the uncertainty and volatility caused by the ongoing COVID-19 crisis. The health and safety of our staff and associates is of major concern and we have taken steps to mitigate this risk by avoiding face to face meetings and through the greater adoption of video-conferencing services and, when absolutely required, socially distanced meetings. This year's AGM format will reflect the current business environment and ongoing risks associated with the COVID-19 pandemic.

Operationally, COVID-19 has not caused significant disruptions to the Company's projects during the year, however, the inability to travel to some project sites and the associated slowdown in government processing of licenses has delayed progress in some instances.

Internal Controls & Risk Management

The Directors are responsible for the Group's system of internal financial control. Although no system of internal financial control can provide absolute assurance against material misstatement or loss. The Group's system is designed to provide reasonable assurance that problems are identified on a timely basis and dealt with appropriately. In carrying out their responsibilities, the Directors have put in place a framework of controls to ensure as far as possible that ongoing financial performance is monitored in a timely manner, that corrective action is taken and that risk is identified as early as practically possible, and they have reviewed the effectiveness of internal financial controls.

Key Performance Indicators (KPIs)

At this stage in the Company's development, the Directors regularly monitor key performance indicators, associated with liquidity, primary cash flows and bank balances, general administrative expenses as well as share price performance and appreciation.

Corporate Responsibility

The Company takes its responsibilities as a corporate citizen seriously and has in place a Corporate Social Responsibility ("CSR") policy. The Board's primary goal is to create shareholder value but in a responsible way, which serves all stakeholders. The Company recognises that as a junior exploration and development business, the Company has a responsibility to local communities in which it works, ensuring that the projects it operates are undertaken with responsible behaviours. The Company's framework for CSR places emphasis on stakeholder engagement and information dissemination, ensuring that the local communities are aware of plans and activities being conducted. Where appropriate, the Company also undertakes sustainable development projects, including capacity building, scholarships and related ventures.

Governance

The Board considers sound governance as a critical component of the Company's success and the highest priority. The Company has an effective and engaged Board, with a strong non-executive presence drawn from diverse backgrounds and with well-functioning governance committees. Through the Company's compensation policies and variable components of employee remuneration, the Remuneration Committee of the Board seeks to ensure that the Company's values are reinforced in employee behaviour and that effective risk management is promoted.

Analysis by Gender

Category	Male	Female
Directors	4	0
Other Employees	0	1

Employees and Their Development

The Company is dependent upon the qualities and skills of its employees and their commitment plays a major role in the Company's business success. Employees' performance is aligned to the Company's goals through an annual performance review process and via incentive programmes. The Company provides employees with information about its activities through regular briefings and other media. The Company operates a Share Option Scheme, operated at the discretion of the Remuneration Committee and an employee Share Incentive Plan operated by the Share Incentive Plan Trustees.

Diversity and Inclusion

The Company does not discriminate on the grounds of age, gender, nationality, ethnic or racial origin, non-job-related-disability, sexual orientation or marital status. The Company gives due consideration to all applications and provides training and the opportunity for career development wherever possible. The Board does not support discrimination of any form, positive or negative, and all appointments are based solely on merit.

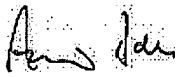

Health and Safety

The Company includes Health and Safety ("H&S") procedures and frameworks in all of its planning and field activities, with emphasis on top-down as well as bottom-up ownership and responsibility, quality training of all personnel and risk assessments that go beyond regulatory compliance. Comprehensive Risk Assessments of Health and Safety Systems have been developed to identify existing risks, to implement relevant mitigation measures and to identify potential risks before they may be directly applicable to our operations. Red Rock's H&S strategy includes project and location specific training as well as H&S inductions, Emergency Response Plans and field team reporting procedures.

Section 172 Statement

Section 172 of the Companies Act 2006 requires Directors to take into consideration the interests of stakeholders and other matters in their decision making. The Directors continue to have regard to the interests of the Company's employees and other stakeholders, the impact of its activities on the community, the environment and the Company's reputation for good business conduct, when making decisions. In this context, acting in good faith and fairly, the Directors consider what is most likely to promote the success of the Company for its members in the long term. We explain in this annual report, and referenced herein, how the Board engages with stakeholders.

Signed by order of the Board.

A handwritten signature in black ink, appearing to read 'Andrew Bell', is positioned above the printed name.

Andrew Bell
Chairman and CEO
28 December 2021

Governance

Board of Directors

The Board of Directors makes decisions on shareholders' behalf. Red Rock has one Executive Director, one Director and two Non-Executive Directors.

Andrew Bell, MA, LLB

Chairman and CEO

Andrew Bell began his career as a natural resources analyst at Morgan Grenfell & Co. in the 1970s. His business experience encompasses periods in fund management and advisory work at leading financial institutions, international corporate finance work and private equity. Andrew Bell is also a former director of various listed resource sector companies: Chairman and Director of Power Metal Resources Plc (AIM), Non-Executive Director of Jupiter Mines Ltd (ASX), Chairman of Star Striker Ltd (now Intiger Group Ltd) (ASX) and Non-Executive Chairman of Greatland Gold Plc (AIM). Andrew Bell has considerable sector experience and his skills also include financial, business and legal analysis as well as experience of public markets.

Scott Kaintz, BS, MBA

Director

Scott Kaintz has over 10 years of experience managing and operating natural resource development companies. He has a degree in Russian Language and Russian Area Studies from Georgetown University and MBA degrees from London Business School and Columbia Business School. He started his career as a US Air Force Officer and analyst working across Europe, the Middle East and Central Asia. Scott has held operational and managerial roles in the defense industry and worked in corporate finance and investment funds in London, focusing primarily on capital raising efforts and debt and equity investments in small-cap companies. He joined Red Rock Resources Plc in 2011, and he is also an Executive Director of Corcel Plc and Curzon Energy Plc.

Michael Alexander Borrelli, FCA

Independent Non-Executive Director

Michael Alexander Borrelli initially studied medicine and then qualified as a chartered accountant with Deloitte, Haskins & Sells, London in 1982. He then worked in corporate finance at Guinness Mahon, Samuel Montagu and as a corporate finance and main board director at Charterhouse. His subsequent investment banking business included nine years as a Head of Corporate Finance and AIM Nomad qualified executive at a specialist investment bank. He has acted on a wide variety of corporate transactions in a senior role for over 20 years, including flotations, takeovers, mergers and acquisitions for private and quoted companies. For the last 15 years, he has been acting as chairman and director of various listed companies, including AIM-listed Greatland Gold Plc, Xpediator Plc, Tiger Royalties and Investments Plc and most recently Bradda Head Lithium Limited.

Sam Quinn

Non-Executive Director

Sam Quinn has a Bachelor of Laws and Bachelor of Arts and is a qualified lawyer in Western Australia and in England & Wales. He has served as Legal Counsel for and as part of the executive management team of several listed and non-listed gold, silver, copper, iron-ore and diamond exploration and development companies with operations in various jurisdictions. Mr Quinn is an Executive Director of Tectonic Gold Plc, listed on Aquis, and is a Non-Executive Director of Blencowe Resources Plc, listed on the LSE. Mr Quinn has strong legal expertise as well as significant experience in public markets, the resources sector and in corporate finance. Mr Quinn is the former legal counsel to the Dragon Group, a mining finance boutique and a partner of Corporate Service Providers Silvertree Partners.

Responsibilities of the Board

- Focus on governance over management;
- Formulate, review and approve the Company strategy;
- Oversee financial activities and operational performance; and
- Approval of annual budget and periodic fiscal reviews.

Focus Areas for 2022

- Continued exploration and development of Kenyan gold assets;
- IPO or transaction involving Red Rock Australasia gold licenses;
- IPO or transaction involving Company's Côte d'Ivoire and Burkina Faso assets;
- Settlement of the Company's claims in the DRC; and
- Bolstering Company's financial resources and balance sheet.

Red Rock Resources Plc - Company Number: 05225394

Directors' Report

for the year ended 30 June 2021

The Directors present their annual report on the affairs of the Group and Parent Company, together with the Group Financial Statements for the year ended 30 June 2021.

Results and Dividends

The Group's results are set out in the Consolidated Income Statement on page 25. The audited Financial Statements for the year ended 30 June 2021 are set out on pages 24 to 65.

The Group made a post-tax loss of £1.689 million (2020: profit of £5.156 million).

The Directors do not recommend the payment of a dividend (2020: nil).

Business Review and Future Developments

The business review and future developments are dealt with in the Chairman's Statement and in the Strategic Review on pages 4 to 9.

Fundraising and Share Capital

During the year, the Company raised £2,000,000 in new equity (2020: nil); further details are given in note 20.

Directors

The Directors, who served at any time during the period to date, are as follows:

Andrew R M Bell
 Michael C Nott (Resigned 12 February 2021)
 Scott Kaintz
 Sam Quinn
 Alex Borrelli (Joined after the period end on 26 July 2021)

The direct and beneficial interests of the Board in the shares of the Company as at 30 June 2021 were as follows:

	Ordinary shares			As percentage of issued share capital	Options	Warrants
	Direct	Beneficial	Total			
Andrew R M Bell	31,238,520	15,396,487	46,635,007	3.83%	28,760,000	—
Scott Kaintz	2,517,807	15,396,487	17,914,294	1.47%	20,180,000	—
Sam Quinn	2,206,766	13,421,944	15,628,710	1.28%	3,900,000	—

The direct and beneficial interests of the Board in the shares of the Company as at 30 June 2020 were as follows:

	Ordinary shares			As percentage of issued share capital	Options	Warrants
	Direct	Beneficial	Total			
Andrew R M Bell	31,238,520	11,552,617	42,791,137	6.14%	17,760,000	3,125,000
Michael C Nott	1,471,807	11,235,652	12,707,459	1.82%	900,000	—
Scott Kaintz	2,517,807	11,552,617	14,070,424	2.02%	15,680,000	—
Sam Quinn	2,206,766	9,605,944	11,812,710	1.70%	3,900,000	—

Events After the Reporting Period

The events after the reporting period are set out in note 27 to the Financial Statements.

Directors' Report (continued)

Substantial Shareholdings

On 30 June 2021 and 1 December 2021, the following were registered as being interested in 3% or more of the Company's Ordinary share capital:

	30 June 2021		1 December 2021	
	Ordinary shares of £0.0001 each	Percentage of issued share capital	Ordinary shares of £0.0001 each	Percentage of issued share capital

Nomura Custody Nominees Limited – Designation CUSTNOMS	-	-	39,702,381	3.26%
Total number of shares in issue	1,216,708,801		1,216,708,801	

Management Incentives

In the year to 30 June 2021, the Company has granted 21,000,000 options over its Ordinary shares (2020: nil). As at 30 June 2021, 63,320,000 options were outstanding (2020: 42,320,000).

In January 2012, the Company implemented a tax efficient Share Incentive Plan, a government approved scheme, the terms of which provide for an equal reward to every employee, including Directors, who had served for three months or more at the time of issue. The terms of the plan provide for:

- Each employee to be given the right to subscribe any amount up to £150 per month with Trustees, who invest the monies in the Company's shares ("Partnership Shares");
- The Company to match the employee's investment by contributing an amount equal to double the employee's investment ("Matching Shares");
- The Company to award free shares to a maximum of £3,600 per employee per annum ("Free Shares"); and
- All shares awarded under the Plan are held by the Share Incentive Plan Trustees and such shares cannot be released to participants until five years after the date of award, except in specific circumstances.

The subscriptions remain free of taxation and national insurance if held for five years.

In January 2016, the Directors approved an EMI (enterprise management incentive) Scheme, and all options granted by the Company in the year to 30 June 2021 to Directors and full-time employees have been granted under the EMI Scheme.

Further details on share options and the Share Incentive Plan are set out in note 22 to the Financial Statements.

Directors' Remuneration Report

The remuneration of the Executive Directors, paid during the year, was fixed on the recommendation of the Remuneration Committee. The remuneration of the Non-Executive Directors, paid during the year, was fixed on the recommendation of the Executive Directors. This has been achieved, acknowledging the need to maximise the effectiveness of the Company's limited resources during the year.

When conducting annual reviews of Executive and Non-Executive remuneration, the Company's strategy of natural resource development and investment, as well as KPIs such as Company liquidity and share price performance and overall project development are taken into consideration and directly affect ongoing remuneration levels. The Remuneration Committee may set annual targets based on these KPIs to provide additional and more specific goals by which to assess annual Executive performance.

A fee was paid to each Director for the year ended 30 June 2021. In addition, certain fees and expenses were paid to businesses with which the Directors are associated as set out in note 9 to the Financial Statements.

Each Director is entitled to participate in the Share Incentive Plan.

Directors' Report (continued)

The Company also has a Group Personal Pension Scheme for all eligible employees, including the Directors. The Scheme is an insured, defined contribution arrangement with all members entitled to an employer pension contribution equivalent to 8% of basic salary, subject to the individual making contribution to the Scheme (subject to statutory and regulatory conditions). The Scheme is available on a salary sacrifice basis, with 100% of the employer's national insurance saving passed on to the member by way of an enhanced employer contribution to the Scheme of an equivalent amount.

The Company is closely associated with Power Metal Resources Plc. The Company had a 2.18% interest in Power Metal Resources Plc as at 30 June 2021 (2020: 4.52%) and is jointly invested in the Red Rock Australasia joint venture with Power Metal Resources Plc. One Director, Andrew Bell, was also a Director of, and was paid by, Power Metal Resources Plc as of 30 June 2021. The amount of Andrew Bell's remuneration is not required to be disclosed in the Company Financial Statements, but is fully disclosed in the Financial Statements of Power Metal Resources Plc.

Corporate Governance Statement

A corporate governance statement follows on pages 16 to 18.

Control Procedures

The Board has approved financial budgets and cash forecasts. In addition, it has implemented procedures to ensure compliance with accounting standards and effective reporting.

Environmental Responsibility

The Company is aware of the potential impact that its subsidiary companies may have on the environment. The Company policy is to follow the best international practice in mitigating and minimising impacts through exploration and mining activities. The Company ensures that it and its subsidiaries comply with the local regulatory requirements and industry standards for environmental and social risk management.

Employment Policies

The Group is committed to promoting policies, which ensure that high calibre employees are attracted, retained and motivated, to ensure the ongoing success of the business. Employees, and those who seek to work within the Group, are treated equally regardless of sex, marital status, creed, colour, race or ethnic origin.

Health and Safety

The Group's aim is to achieve and maintain a high standard of workplace safety. In order to achieve this objective, the Group provides training and support to employees and sets demanding standards for workplace safety.

Suppliers, Customers and Regulatory Authorities

The Board acknowledges that a strong business relationship with suppliers and customers is a vital part of the growth. Whilst day to day business operations are delegated to the executive management, the Board sets directions with regard to new business ventures. The Board uphold ethical behaviour across all sectors of the business and encourages management to seek comparable business practices from all suppliers and customers doing business with the Company. We value the feedback, we receive from our stakeholders, and we take every opportunity to ensure that, where possible, their wishes are duly considered.

Going Concern

It is the prime responsibility of the Board to ensure the Company and the Group remains a going concern. At 30 June 2021, the Group had cash and cash equivalents of £0.457 million and £0.969 million of borrowings and, as at the date of signing these Financial Statements, the cash balance was £0.062 million. The Directors anticipate having to raise additional funding over the course of the financial year.

Having considered the prepared cashflow forecasts and the Group budgets, which includes the possibility of Directors reducing or foregoing their salaries if required, the progress in activities post year-end, including the anticipated asset sales of £0.953 million, the Directors consider that they will have access to adequate resources in the 12 months from the date of the signing of these Financial Statements. As a result, they consider it appropriate to continue to adopt the going concern basis in the preparation of the Financial Statements.

Should the Group be unable to continue trading as a going concern, adjustments would have to be made to reduce the value of the assets to their recoverable amounts, to provide for further liabilities, which might arise, and to classify non-current assets as current. The Financial Statements have been prepared on the going concern basis and do not include the adjustments that would result if the Group was unable to continue as a going concern.

Directors' Report (continued)

Provision of Information to Auditor

The Directors confirm that:

- So far as each Director is aware, there is no relevant audit information of which the Company's auditor is unaware; and
- The Directors have taken all the steps that they ought to have taken as Directors in order to make themselves aware of any relevant audit information and to establish that the auditor is aware of that information.

Auditor

A resolution, proposing the re-appointment of PKF Littlejohn LLP as auditor, is contained in the Notice of Annual General Meeting and will be put to shareholders at the Annual General Meeting.

By order of the Board.

Signed by:

Andrew Bell
Chairman and CEO

28 December 2021

Statement of Directors' Responsibilities

The Directors are responsible for preparing the Strategic Report, the Directors' Report and the Financial Statements in accordance with applicable law and regulations.

Company law requires the Directors to prepare Group and Company Financial Statements for each financial year. Under that law, the Directors have elected to prepare the Group and Company Financial Statements in accordance with international accounting standards in conformity with the requirements of the Companies Act 2006. Under company law, the Directors must not approve the Financial Statements unless they are satisfied that they give a true and fair view of the state of affairs of the Group and the Company and of the profit or loss of the Group for that period.

In preparing the Group and the Company Financial Statements, the Directors are required to:

- Select suitable accounting policies and then apply them consistently;
- Make judgements and accounting estimates that are reasonable and prudent;
- State whether applicable international accounting standards in conformity with the requirements of the Companies Act 2006 have been followed, subject to any material departures disclosed and explained in the Financial Statements; and
- Prepare the Financial Statements on the going concern basis unless it is inappropriate to presume that the Group and the Company will continue in business.

The Directors are responsible for keeping adequate accounting records that are sufficient to show and explain the Company's transactions and disclose with reasonable accuracy at any time the financial position of the Company and enable them to ensure that the Financial Statements comply with the Companies Act 2006. They are also responsible for safeguarding the assets of the Company and hence for taking reasonable steps for the prevention and detection of fraud and other irregularities.

The Directors are responsible for the maintenance and integrity of the corporate and financial information included on the Red Rock Resources Plc website. Legislation in the United Kingdom, governing the preparation and dissemination of Financial Statements, may differ from legislation in other jurisdictions.

The Company is compliant with AIM Rule 26 regarding the Company's website.

The Directors have confirmed that they have complied with the above requirements in preparing the Financial Statements.

Corporate Governance Statement

“Good corporate governance provides a sound framework through which we can successfully deliver our strategy and return value to our stakeholders.”

Dear Shareholders

The Board is committed to maintaining high standards of corporate governance and in this it is guided by the Quoted Companies Alliance's Corporate Governance Code (the "QCA Code"). The QCA Code sets out 10 principles that define Red Rock's own governance policies, several of which, are expanded on below.

Strategy and Risks

Business Model and Strategy for Promotion of Long-Term Value

The Board considers that the highest medium and long-term value can be delivered to its shareholders by creating a diverse portfolio of holdings with exposure to commodities across multiple stages of the natural resource cycle, from exploration to production, and with a degree of geographical and commodity diversity. The Company's objective focusses on opportunities to add and realise value in reasonably short timeframes, and considers the generation of multiple sustainable income streams to be its prime task as this can underpin value and underwrite the higher risk parts of its project pipeline such as mineral exploration. Cash flows from dividends and buy-backs, royalties and operations are supplemented by the conversion of its unlisted asset interests, once they have reached a stage of maturity, where this is possible, to more liquid and more fungible forms.

Role of the Board

The Board has a responsibility to govern the Company rather than to manage it and in doing so act in the best interests of the Company as a whole. Each member of the Board is committed to spending sufficient time to enable them to carry out their duties as a Director. Non-Executive Directors receive formal letters of appointment, setting out the key terms, conditions and expectations of their appointment.

Responsibilities of the Board

The Board is responsible for formulating, reviewing and approving the Company's strategy, financial activities and operating performance. Day-to-day management is devolved to the Executive Directors, who are charged with consulting the Board on all significant financial and operational matters. The Board approves the annual budget and amendments to it, issues of shares or other securities and all significant acquisitions and disposals.

Board of Directors

The Board of Directors comprises four Directors, one of whom is Chairman and CEO as of the year end. In addition, there is an Independent Non-Executive Director, Alexander Borrelli and two Non-Executive Directors, Scott Kaintz and Sam Quinn.

The Directors are of the opinion that the Board comprises a suitable balance of resource sector, technical, financial, accounting, legal and public markets skills as well as experience of the Board as a whole and that the recommendations of the QCA Corporate Governance Code have been implemented to an appropriate level. The Board shall review annually and when required the appropriateness of its mix of skills and experience, to ensure that it meets the changing business needs.

The Board recognises that it has limited ethnic diversity and will give this factor due consideration if the Board concludes that replacement or additional directors are required. It notes that it is only in the last year that operational teams have been able to be rebuilt and that managers and senior staff recruited during the year at Group level reflect a wide and diverse mix of nationalities and ethnicities and that local boards and operations are representative of their communities.

The Board, through the Chairman and Non-Executive Directors, maintains regular contact with its advisers and public relations consultants in order to ensure that the Board develops an understanding of the views of major shareholders about the Company.

All Directors have access to the advice of the Company's solicitors and the Company Secretary, necessary information is supplied to the Directors on a timely basis to enable them to discharge their duties effectively, and all Directors have access to independent professional advice, at the Company's expense, as and when required.

Executive Chairman

The Board acknowledges that, in having a Chairman, who is also the Chief Executive Officer, best practice, as stated in the listing rules of the Financial Services Authority applicable to the main market, is not being followed. However, it is the opinion of the Board as a whole that the current arrangements are appropriate to the Company and Group in its present form and at the current stage of development.

Board Meetings

The Board meets regularly throughout the year. During the year ended 30 June 2021, the Board had 6 scheduled meetings together with additional ad hoc meetings as and when the business required.

Corporate Governance Statement (continued)

Board Meeting Attendance

The Director's attendance at scheduled and ad hoc Board meetings and Board Committees during the year ended 30 June 2021 is detailed in the table below:

Director	Board Scheduled Meetings (6)	Board Ad Hoc Meetings (16)*	Audit Committee (1)	Remuneration Committee (2)
Andrew Bell, Chairman and CEO	6	16	1	-
Scott Kaintz, Non-Executive Director	6	16	1	1
Michael Nott, Non-Executive Director**	4	8	1	1
Sam Quinn, Non-Executive Director	6	16	1	2
Total Meetings	6	16	1	2

* Ad hoc meetings: Meetings called for a specific matter generally of a more administrative or transactional nature often not requiring full Board attendance.

**On 12 February 2021, Michael Nott retired from his role as a Non-Executive Director of Red Rock Resources Plc.

Board Committees

The Board has established the following committees, each of which has its own terms of reference:

Audit Committee

The Audit Committee considers the Group's financial reporting, including accounting policies, and internal financial controls. It is responsible for ensuring that the financial performance of the Group is properly monitored and reported on. The Audit Committee meets as required, at least once with the auditor, and is comprised of Alexander Borrelli, Independent Non-Executive Director, as Chairman and Sam Quinn, Non-Executive Director. The Chairman and senior personnel attend the Committee as requested by the Committee.

It is the responsibility of the Committee to review the annual and half-yearly Financial Statements, to ensure that they adequately comply with appropriate accounting policies, practices and legal requirements, to recommend to the Board their adoption, and to consider the independence of and to oversee the management's appointment of the external auditor.

Remuneration Committee

The Remuneration Committee is responsible for making recommendations to the Board on Executive Directors' remuneration. It comprises two suitably qualified Non-executive Directors: Sam Quinn as Chairman and Alexander Borrelli. The Chairman and other senior personnel attend meetings as requested by the Committee, which meets as required during the year.

Nominations Committee

The Board has not established a Nominations Committee. The Board considers that a separately established committee is not warranted at this stage of the Group's development and that the functions of such a committee are being adequately discharged by the Board as a whole.

Board Evaluation

The internal evaluation of the Board, the Committees and individual Directors, including any succession planning, is undertaken on an annual basis to determine the effectiveness of their performance and suitability to the changing business requirements. The assessment criteria are based on the need to promote the Company's Business Model, industry practices and the need for balance, the Company's immediate aspirations as well as the specific skills, knowledge and capabilities that are required to perform certain roles. The results and recommendations that come out of the appraisals of the Directors and members of the Committees, identify the required changes and actions for the Board and the Committees as units as well as individually for the Directors and members of the Committees.

Ethical Decision Making

Confidentiality

In accordance with legal requirements and agreed ethical standards, Directors and all staff have agreed to maintain confidentiality of non-public information, except where disclosure is authorised or legally mandated.

Bribery

In accordance with the provisions of the Bribery Act, all Directors and staff have been informed and have acknowledged that it is an offence under the act to engage in any form of bribery. The Company has an Anti-Bribery and Whistleblowing Policy in force. The strong law-based culture of the Company is reflected in a willingness occasionally to litigate to protect its interests rather than to negotiate.

Corporate Governance Statement (continued)

Internal Controls

The Directors acknowledge their responsibility for the Group's systems of internal controls and for reviewing their effectiveness. These internal controls are designed to safeguard the assets of the Group and to ensure the reliability of financial information for both internal use and external publication. Whilst they are aware that no system can provide absolute assurance against material misstatement or loss, in the light of increased activity and further development of the Group, continuing reviews of internal controls will be undertaken to ensure that they are adequate and effective.

Insurance

The Group maintains insurance in respect of its Directors and Officers against liabilities in relation to the Company.

Treasury Policy

The Group finances its operations through equity, loans and sales of investments. The Group holds its cash as a liquid resource to fund the obligations of the Group. Decisions, regarding the management of these assets, are approved by the Board.

Securities Trading and Share Dealing

In accordance with the AIM Rules and MAR, the Board has adopted the Share Dealing Code that applies to Directors, senior management and any employee, who is in possession of "inside information". All such persons are prohibited from trading in the Company's securities if they are in possession of "inside information". Subject to this condition and trading prohibitions applying to "close periods" (30 days prior to the publication of the interim and final audited accounts), trading can occur provided the relevant individual has received the appropriate prescribed clearance. All Directors and staff are required to advise the Executive Chairman, or other designated person, of their intention to undertake a transaction in the Company's shares. Such a transaction will be prohibited if the Director or employee is considered to be in possession of non-public material information.

Culture

The Company aims to deliver long-term value to its shareholders through a diverse portfolio of revenue generating mineral exploration projects and investments, corporate transactions, JVs and partnerships. Therefore, the Company aims to ensure an open and respectful dialogue with shareholders and other interested parties for them to have the opportunity to express their views and expectations for the Company. In this dialogue, the importance of sound ethical values and behaviour is emphasised, both because it is important if the Company is to successfully achieve its corporate objectives that this culture is transmitted through the whole organization, and also to set a benchmark and send a signal of what it will and will not do in some of the jurisdictions in which the Company operates.

Relations with Shareholders

The Board recognises that it is accountable to shareholders for the performance and activities of the Company and Group and to this end is committed to providing effective communication with the shareholders of the Company.

Significant developments are disseminated through stock exchange announcements and regular updates of the Company website where descriptions of the Group projects are available and updated regularly. In addition, copies of press comments, broker notes, video updates and presentations are available. On the website, shareholders may sign up to receive news releases directly by e-mail. The Board views the Annual General Meeting as an important forum for communication between the Company and its shareholders and encourages shareholders to express their views on the Group's business activities and performance.

Financial Statements

Independent Auditor's Report

to the Members of Red Rock Resources Plc

Opinion

We have audited the Financial Statements of Red Rock Resources Plc (the "Company" or the "Parent Company") and its subsidiaries (the "Group") for the year ended 30 June 2021, which comprise the Consolidated Statement of Financial Position, the Consolidated Income Statement and Consolidated Statement of Comprehensive Income, the Consolidated Statement of Changes in Equity, the Consolidated Statement of Cash Flows, the Parent Company Statement of Financial Position, the Parent Company Statement of Changes in Equity, the Parent Company Statement of Cash Flows and notes to the Financial Statements, including significant accounting policies. The financial reporting framework that has been applied in their preparation is applicable law and international accounting standards in conformity with the requirements of the Companies Act 2006 and as regards the Parent Company Financial Statements, as applied in accordance with the provisions of the Companies Act 2006.

In our opinion:

- The Financial Statements give a true and fair view of the state of the Group's and of the Parent Company's affairs as at 30 June 2021 and of the Group's loss for the year then ended;
- The Group Financial Statements have been properly prepared in accordance with international accounting standards in conformity with the requirements of the Companies Act 2006;
- The Parent Company Financial Statements have been properly prepared in accordance with international accounting standards in conformity with the requirements of the Companies Act 2006 and prepared in accordance with the requirements of the Companies Act 2006 and as applied in accordance with the provisions of the Companies Act 2006; and
- The Financial Statements have been prepared in accordance with the requirements of the Companies Act 2006.

Basis for Opinion

We conducted our audit in accordance with International Standards on Auditing (UK) (ISAs (UK)) and applicable law. Our responsibilities under those standards are further described in the Auditor's responsibilities for the audit of the Financial Statements section of our report. We are independent of the group and parent company in accordance with the ethical requirements that are relevant to our audit of the Financial Statements in the UK, including the FRC's Ethical Standard as applied to listed entities, and we have fulfilled our other ethical responsibilities in accordance with these requirements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Material Uncertainty Related to Going Concern

We draw attention to note 1.2 in the Financial Statements, which indicates that the Group is required to raise funds within the going concern period. As stated in note 1.2, these events or conditions, along with the other matters as set forth in note 1.2, indicate that a material uncertainty exists that may cast significant doubt on the Group's and Parent Company's ability to continue as a going concern. Our opinion is not modified in respect of this matter.

In auditing the Financial Statements, we have concluded that the Director's use of the going concern basis of accounting in the preparation of the Financial Statements is appropriate. Our evaluation of the Directors' assessment of the Group's and Company's ability to continue to adopt the going concern basis of accounting included:

- Challenging the forecasts prepared by the directors in their assessment of the Group's and Parent Company's ability to meet their financial obligations as they fall due for a period of at least 12 months from the date of approval of the financial statements. The forecasts demonstrated that the Group and Parent Company will require additional funding, or will need to dispose of investments, to meet their liabilities as and when they fall due.
- The forecasts also indicated that the current funding will not be sufficient to meet the planned additional investments and exploration activities.

Our responsibilities and the responsibilities of the Directors, with respect to going concern, are described in the relevant sections of this report.

Our Application of Materiality

The scope of our audit was influenced by our application of materiality. We set certain quantitative thresholds for materiality. These, together with qualitative considerations, helped us to determine the scope of our audit and the nature, timing extent of our audit procedures on the individual financial statement line items and disclosures and in evaluating the effect of misstatements, both individually and on the financial statements as a whole.

Based on our professional judgement, we consider gross assets to be most significant determinant of the group's financial performance and most relevant to investors and shareholders for an exploration group with a number of investments and early-stage projects. Materiality of the parent company was based upon the loss before tax in order to achieve sufficient coverage of expenditure in our testing.

Independent Auditor's Report to the Members of Red Rock Resources Plc (continued)

We also determine a level of performance materiality which we use to assess the extent of testing needed to reduce to an appropriately low level the probability that the aggregate of uncorrected and undetected misstatements exceeds materiality for the financial statements as a whole. In determining our overall audit strategy, we assessed the level of uncorrected misstatements that would be material for the financial statements as a whole.

We determined the group and parent company materiality for the financial statements as a whole to be £209,000 and £106,000 (2020: £114,000 and £102,600) respectively. Performance materiality was set at 60% of overall materiality for the group and parent company at £125,400 and £63,600 (2020: £68,400 and £61,560) respectively, whilst the threshold for reporting unadjusted differences to those charged with governance was set at £10,450 for the group and £5,300 (2020: £5,700 and £5,130) for the parent company. We also agreed to report differences below that threshold that, in our view, warranted reporting on qualitative grounds.

The component materiality was set at group performance materiality of £125,400.

Our Approach to the Audit

In designing our audit, we determined materiality and assessed the risk of material misstatement in the Financial Statements. In particular, we looked at areas involving significant accounting estimates and judgement by the Directors and considered future events that are inherently uncertain. We also addressed the risk of management override of internal controls, including among other matters consideration of whether there was evidence of bias that represented a risk of material misstatement due to fraud.

The accounting records of the Parent Company and all subsidiary undertakings are centrally located and audited by us based upon materiality or risk. The key audit matters, and how these were addressed, are outlined below.

Key Audit Matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the Financial Statements of the current period and include the most significant assessed risks of material misstatement (whether or not due to fraud) we identified, including those which had the greatest effect on: the overall audit strategy, the allocation of resources in the audit and directing the efforts of the engagement team. These matters were addressed in the context of our audit of the Financial Statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters. In addition to the matter described in the Material uncertainty related to going concern section, we have determined the matters described below to be the key audit matters to be communicated in our report.

Key Audit Matter	How Our Scope Addressed This Matter
<p>Recoverability of exploration assets (see notes 1.5 and 13)</p> <p>Exploration assets have a carrying value in the Financial Statements of £13,515,000 at 30 June 2021 (2020: £11,858,000).</p> <p>We identified an audit risk that exploration assets are incorrectly valued because an impairment exists that has not been recognised, and additions expenditure had been capitalised which do not meet the eligibility criteria under IFRS 6.</p> <p>This was assessed to be a key audit matter because exploration assets represent 70% of the Group's total assets and management are required to use their judgement in assessing their recoverability.</p>	<p>Our work in this area included the following:</p> <ul style="list-style-type: none"> • Obtaining and challenging management's impairment review, together with evaluating announcements and progress on the license areas, including exploration results and updated mineral resource estimates; • Obtaining copies of the exploration licenses to ensure good title and check, where applicable, that any specific terms or conditions therein have been adequately met; • Performed an independent assessment for indicators of impairment in accordance with the requirements of IFRS 6; • Assessing the appropriateness of the disclosures made in respect of management's judgement on whether impairment indicators exist; and • Testing additions in the period to ensure they meet the eligibility criteria under IFRS 6.

Independent Auditor's Report to the Members of Red Rock Resources Plc (continued)

<p>Recoverability of non-current assets (see notes 1.5 and 17)</p>	
<p>Non-current assets has a carrying value in the Financial Statements of £1,344,000 at 30 June 2021 (2020: £1,432,000).</p> <p>Non-current assets represent amounts expected to be receivable through a net smelter royalty, following the sale of MFP in a previous accounting period. The asset is measured at fair value based on the net present value of future cash flows expected to be received in respect of the royalty proceeds.</p> <p>We identified an audit risk that these assets are not recoverable and, therefore, are incorrectly valued in the Financial Statements.</p> <p>This was assessed to be a key audit matter because non-current assets are financially significant and management are required to use their judgement and estimation in preparing the net present value of future cash flows from the royalty stream.</p>	<p>Our work in this area included the following:</p> <ul style="list-style-type: none"> • Obtaining management's working for the valuation of the MFP sales proceeds and ensuring arithmetical accuracy of the workings; • Evaluating publicly available information on production activities at the mine; • Reviewing all model inputs and assumptions and ensuring they are reasonable and appropriate; • Considering whether management have included all possible factors which could impact the valuation; and • Considering whether there are indications of impairment in the valuation or whether there are indications that the balance is not recoverable.
<p>Key Observations</p> <p>In reviewing the calculations prepared by management, we noted the following assumptions as key:</p> <ul style="list-style-type: none"> • Estimate production rate; • Discount rate; and • Gold price. <p>Commissioning and initial production at the mine commenced during 2021 with production expected to ramp up to commercial levels during the forthcoming year. Management anticipate significant growth rates in production from 2022 onwards.</p> <p>We draw to the users attention the disclosure in note 1.5, which lists the key assumptions in the calculation of fair value of non-current assets. The Financial Statements do not include the adjustments that would be required if the assumptions used are not accurate.</p>	

Other Information

The other information comprises the information included in the annual report, other than the Financial Statements and our auditor's report thereon. The Directors are responsible for the other information, contained within the annual report. Our opinion on the Financial Statements does not cover the other information and, except to the extent otherwise explicitly stated in our report, we do not express any form of assurance conclusion thereon. Our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the Financial Statements or our knowledge obtained in the course of the audit, or otherwise appears to be materially misstated. If we identify such material inconsistencies or apparent material misstatements, we are required to determine, whether this gives rise to a material misstatement in the Financial Statements themselves. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact.

We have nothing to report in this regard.

Opinions on Other Matters Prescribed by the Companies Act 2006

In our opinion, based on the work undertaken in the course of the audit:

- The information, given in the Strategic Report and the Directors' Report for the financial year for which the Financial Statements are prepared, is consistent with the Financial Statements; and
- The Strategic Report and the Directors' Report have been prepared in accordance with applicable legal requirements.

Independent Auditor's Report to the Members of Red Rock Resources Plc (continued)

Matters on Which We are Required to Report by Exception

In the light of the knowledge and understanding of the Group and Parent Company and its environment obtained in the course of the audit, we have not identified material misstatements in the Strategic Report or the Directors' Report.

We have nothing to report in respect of the following matters in relation to which the Companies Act 2006 requires us to report to you if, in our opinion:

- adequate accounting records have not been kept by the parent company, or returns adequate for our audit have not been received from branches not visited by us; or
- the parent company financial statements are not in agreement with the accounting records and returns; or
- certain disclosures of Directors' remuneration specified by law are not made; or
- we have not received all the information and explanations we require for our audit.

Responsibilities of Directors

As explained more fully in the statement of Directors' responsibilities, the Directors are responsible for the preparation of the group and parent company financial statements and for being satisfied that they give a true and fair view, and for such internal control as the Directors determine is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the group and parent company financial statements, the Directors are responsible for assessing the group's and parent company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the Directors either intend to liquidate the group or parent company or to cease operations, or have no realistic alternative but to do so.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the Financial Statements, as a whole, are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not a guarantee that an audit conducted in accordance with ISAs (UK) will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these Financial Statements.

Irregularities, including fraud, are instances of non-compliance with laws and regulations. We design procedures in line with our responsibilities, outlined above, to detect material misstatements in respect of irregularities, including fraud. The extent to which our procedures are capable of detecting irregularities, including fraud is detailed below:

- We obtained an understanding of the Group and Parent Company and the sector, in which they operate, to identify laws and regulations that could reasonably be expected to have a direct effect on the Financial Statements. We obtained our understanding in this regard through discussions with management and our cumulative audit knowledge and experience of the sector.
- We determined the principal laws and regulations relevant to the Group and Parent Company in this regard to be those arising from international accounting standards, the Companies Act 2006 and the local laws and regulations in the jurisdictions in which the Group operates.
- We designed our audit procedures to ensure the audit team considered whether there were any indications of non-compliance by the Group and Parent Company with those laws and regulations. These procedures included, but were not limited to, enquiries of management, review of Board minutes and a review of legal or regulatory correspondence.
- We also identified the risks of material misstatement of the Financial Statements due to fraud. We considered, in addition to the non-rebuttable presumption of a risk of fraud arising from management override of controls, that the risk of fraud related to the estimates, judgements and assumptions applied by management in their assessment of impairment of intangible assets, the valuation of unlisted investments and the recoverability of non-current receivables. Refer to the Key Audit Matters section above on how our audit scope addressed these matters.
- We addressed the risk of fraud arising from management override of controls by performing audit procedures which included, but were not limited to: the testing of journals, reviewing accounting estimates for evidence of bias, and evaluating the business rationale of any significant transactions that are unusual or outside the normal course of business.

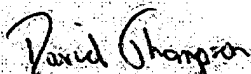

Independent Auditor's Report to the Members of Red Rock Resources Plc (continued)

Because of the inherent limitations of an audit, there is a risk that we will not detect all irregularities, including those leading to a material misstatement in the Financial Statements or non-compliance with regulation. This risk increases the more that compliance with a law or regulation is removed from the events and transactions reflected in the Financial Statements, as we will be less likely to become aware of instances of non-compliance. The risk is also greater regarding irregularities occurring due to fraud rather than error as fraud involves intentional concealment, forgery, collusion, omission or misrepresentation.

A further description of our responsibilities for the audit of the Financial Statements is located on the Financial Reporting Council's website at: www.frc.org.uk/auditorsresponsibilities. This description forms part of our auditor's report.

Use of Our Report

This report is made solely to the Company's members, as a body, in accordance with Chapter 3 of Part 16 of the Companies Act 2006. Our audit work has been undertaken so that we might state to the Company's members those matters we are required to state to them in an auditor's report and for no other purpose. To the fullest extent permitted by law, we do not accept or assume responsibility to anyone, other than the Company and the Company's members as a body, for our audit work, for this report, or for the opinions we have formed.

The accompanying notes and accounting policies form an integral part of these Financial Statements.

Notes to the Financial Statements

1. Principal Accounting Policies

1.1 Authorisation of Financial Statements and Statement of Compliance with IFRS

The Group Financial Statements of Red Rock Resources Plc, for the year ended 30 June 2021, were authorised for issue by the Board on 28 December 2021 and the Statement of Financial Position signed on the Board's behalf by Andrew Bell. Red Rock Resources Plc is a public limited company incorporated and domiciled in England and Wales. The Company's ordinary shares are traded on AIM.

1.2 Basis of Preparation

The Financial Statements have been prepared in accordance with international accounting standards in conformity with the requirements of the Companies Act 2006. The Financial Statements have been prepared on the cost basis, except for certain financial instruments, which are carried as described in the respective sections in the policies below. The principal accounting policies adopted are set out below.

Going Concern

It is the prime responsibility of the Board to ensure the Company and the Group remains a going concern. At 30 June 2021, the Group had cash and cash equivalents of £0.457 million and £0.969 million of borrowings and, as at the date of signing these Financial Statements, the cash balance was £0.062 million. The Directors anticipate having to raise additional funding over the course of the going concern period.

Having considered the prepared cashflow forecasts and the Group budgets, which includes the possibility of Directors reducing or foregoing their salaries if required, the progress in activities post year-end, including the anticipated asset sales of £0.953 million, the Directors consider that they will have access to adequate resources in the 12 months from the date of the signing of these Financial Statements. As a result, they consider it appropriate to continue to adopt the going concern basis in the preparation of the Financial Statements.

Should the Group be unable to continue trading as a going concern, adjustments would have to be made to reduce the value of the assets to their recoverable amounts, to provide for further liabilities, which might arise, and to classify non-current assets as current. The Financial Statements have been prepared on the going concern basis and do not include the adjustments that would result if the Group was unable to continue as a going concern.

Amendments to Published Standards Effective for the year Ended 30 June 2021

New Standards, Amendments and Interpretations

The Group and the Parent Company have adopted all of the new and amended standards and interpretations, issued by the International Accounting Standards Board that are relevant to its operations and effective for accounting periods commencing on or after 1 July 2020.

The following new IFRS standards and/or amendments to IFRS standards were adopted for the first time during the year, none of which had a material impact on the Financial Statements:

- Amendments to IFRS 3: Business Combinations (effective 1 January 2020);
- Amendments to IAS 1 and IAS 8: Definition of Material (effective 1 January 2020); and
- Amendments to IFRS 9, IAS 39 and IFRS 17: Interest Rate Benchmark Reform (effective 1 January 2020).

No standards or interpretations, that came into effect for the first time for the financial year beginning 1 July 2020, have had an impact on the Group or the Company.

New Standards, Amendments and Interpretations Not Yet Adopted

At the date of approval of these Financial Statements, the following standards and interpretations, which have not been applied in these Financial Statements were in issue but not yet effective:

- Amendments to IAS 1: Presentation of Financial Statements – Classification of Liabilities as Current or Noncurrent (effective date not yet confirmed);
- Amendments to IFRS 3: Business Combinations – Reference to Conceptual Framework (effective 1 January 2022);
- Amendments to IAS 16: Property, Plant and Equipment (effective 1 January 2022);
- Amendments to IAS 37: Provisions, Contingent Liabilities and Contingent Assets (effective 1 January 2022);

Notes to the Financial Statements (continued)

for the year ended 30 June 2021

1. Principal Accounting Policies (continued)

1.2 Basis of Preparation (continued)

- Annual Improvements to IFRS Standards 2018-2020 Cycle (effective 1 January 2022);
- Amendments to IAS 8: Accounting Policies, Changes to Accounting Estimates and Errors (effective date not yet confirmed); and
- Amendments to IAS 12: Income Taxes – Deferred Tax arising from a Single Transaction (effective date not yet confirmed).

The effect of these new and amended standards and interpretations, which are in issue but not yet mandatorily effective, is not expected to be material.

Standards Adopted Early by the Group

The Group has not adopted any standards or interpretations early in either the current or the preceding financial year.

1.3 Basis of Consolidation

The Consolidated Financial Statements of the Group incorporate the Financial Statements of the Company and subsidiaries controlled by the Company made up to 30 June each year.

Subsidiaries

Subsidiaries are entities over which the Group has the power to govern the financial and operating policies so as to obtain economic benefits from their activities. Subsidiaries are consolidated from the date on which control is obtained, the acquisition date, up until the date that control ceases.

The acquisition method of accounting is used to account for the acquisition of subsidiaries by the Group. The cost of an acquisition is measured as the fair value of the assets given, equity instruments issued, contingent consideration and liabilities incurred or assumed at the date of exchange. Costs, directly attributable to the acquisition, are expensed as incurred. Identifiable assets acquired and liabilities and contingent liabilities assumed in a business combination are initially measured at fair value at the acquisition date. Provisional fair values are adjusted against goodwill if additional information is obtained within one year of the acquisition date, about facts or circumstances, existing at the acquisition date. Other changes in provisional fair values are recognised through profit or loss. Non-controlling interests in subsidiaries are measured at the proportionate share of the fair value of their identifiable net assets. Intra-group transactions, balances and unrealised gains and losses on transactions between the Group companies are eliminated on consolidation, except to the extent that intra-group losses indicate an impairment.

At 30 June 2021, the Consolidated Financial Statements combine those of the Company with those of its subsidiaries, Red Rock Australasia Pty Ltd, RRR Coal Ltd, Red Rock Resources Congo S.A.U., RedRock Kenya Ltd and Red Rock Resources (HK) Ltd.

The Group's dormant subsidiary Intrepid Resources Ltd, Red Rock Resources Inc., RRR Kenya Ltd., Ivory Coast, Red Rock Cote D'Ivoire SARL and Basse Terre SARL, have been excluded from consolidation on the basis of the exemption provided by Section 405(2) of the Companies Act 2006 that their inclusion is not material for the purpose of giving a true and fair view.

Non-Controlling Interests

Profit or loss and each component of other comprehensive income are allocated between the Parent and non-controlling interests, even if this results in the non-controlling interest having a deficit balance.

Transactions with non-controlling interests, that do not result in loss of control, are accounted for as equity transactions. Any differences between the adjustment for the non-controlling interest and the fair value of consideration paid or received are recognised in equity.

1.4 Summary of Significant Accounting Policies

1.4.1 Mineral Tenements and Exploration Property

Exploration licence and property acquisition costs are capitalised in intangible assets. Licence costs, paid in connection with a right to explore in an existing exploration area, are capitalised and amortised over the term of the permit. Licence and property acquisition costs are reviewed at each reporting date to confirm that there is no indication that the carrying amount exceeds the recoverable amount. If no future activity is planned or the licence has been relinquished or has expired, the carrying value of the licence and property acquisition costs are written off through the statement of profit or loss and other comprehensive income.

1.4.2 Investment in Associates

An associate is an entity over which the Group has the power to exercise significant influence, but not controlled or jointly controlled by the Group, through participation in the financial and operating policy decisions of the investee.

Notes to the Financial Statements (continued)

for the year ended 30 June 2021

1. Principal Accounting Policies (continued)

1.4 Summary of Significant Accounting Policies (continued)

Investments in associates are recognised in the Consolidated Financial Statements, using the equity method of accounting. The Group's share of post-acquisition profits or losses is recognised in profit or loss and its share of post-acquisition movements in other comprehensive income is recognised directly in other comprehensive income.

The carrying value of the investment, including goodwill, is tested for impairment, when there is objective evidence of impairment. Losses in excess of the Group's interest in those associates are not recognised, unless the Group has incurred obligations or made payments on behalf of the associate.

Where the Group transacts with an associate of the Group, unrealised gains are eliminated to the extent of the Group's interest in the relevant associate. Unrealised losses are also eliminated, unless the transaction provides evidence of an impairment of the asset transferred, in which case appropriate provision is made for impairment.

In the Company Financial Statements, investments in associates are recognised and held at cost. The carrying value of the investment is tested for impairment, when there is objective evidence of impairment.

1.4.3 Interests in Joint Ventures

The Group recognises its interest in the jointly controlled entity's assets and liabilities, using the equity method of accounting. Under the equity method, the interest in the joint venture is carried in the Statement of Financial Position at cost plus post-acquisition changes in the Group's share of its net assets, less distributions received and less any impairment in value of individual investments. The Group Income Statement reflects the share of the jointly controlled entity's results after tax.

Any goodwill, arising on the acquisition of a jointly controlled entity, is included in the carrying amount of the jointly controlled entity and is not amortised. To the extent that the net fair value of the entity's identifiable assets, liabilities and contingent liabilities is greater than the cost of the investment, a gain is recognised and added to the Group's share of the entity's profit or loss in the period in which the investment is acquired.

Where necessary, adjustments are made to bring the accounting policies in line with those of the Group's and to reflect impairment losses where appropriate. Adjustments are also made in the Group's Financial Statements to eliminate the Group's share of unrealised gains and losses on transactions between the Group and its jointly controlled entity. The Group ceases to use the equity method on the date from which it no longer has joint control over, or significant influence in, the joint venture.

1.4.4 Taxation

Corporation tax is provided on taxable profits or losses at the current rate. The tax expense/credit represents the sum of the current tax expense/credit and deferred tax.

The tax currently payable/receivable is based on taxable profit or loss for the year. Taxable profit or loss differs from accounting profit or loss as reported in the Statement of Comprehensive Income, because it excludes items of income or expense that are taxable or deductible in other years and it further excludes items that are never taxable or deductible. The Group's liability for current tax is measured using tax rates that have been enacted or substantively enacted by the reporting date.

Deferred tax is the tax expected to be payable or recoverable on differences between the carrying amount of assets and liabilities in the Financial Statements and the corresponding tax bases used in the computation of taxable profit or loss and is accounted for using the balance sheet liability method. Deferred tax liabilities are recognised for all taxable temporary differences and deferred tax assets are recognised to the extent that it is probable that taxable profits will be available against which deductible temporary differences can be utilised. Such assets and liabilities are not recognised if the temporary difference arises from the initial recognition of goodwill or from the initial recognition (other than in a business combination) of other assets and liabilities in a transaction, which affects neither the taxable profit or loss nor the accounting profit or loss.

Deferred tax liabilities are recognised for taxable temporary differences, arising on investments in subsidiaries and associates, and interests in joint ventures, except where the Group is able to control the reversal of the temporary difference and it is probable that the temporary difference will not reverse in the foreseeable future.

Deferred tax is calculated at the tax rates that are expected to apply to the period, when the asset is realised or the liability is settled, based upon tax rates that have been enacted or substantively enacted by the reporting date.

Deferred tax is charged or credited in profit or loss, except when it relates to items credited or charged directly to equity, in which case the deferred tax is also dealt with in equity, or items charged or credited directly to other comprehensive income, in which case the deferred tax is also recognised in other comprehensive income.

Notes to the Financial Statements (continued)

for the year ended 30 June 2021

1. Principal Accounting Policies (continued)

1.4 Summary of Significant Accounting Policies (continued)

Deferred tax assets and liabilities are offset, where there is a legally enforceable right to offset current tax assets and liabilities, and the deferred tax relates to income tax levied by the same tax authorities on either:

- The same taxable entity; or
- Different taxable entities, which intend to settle current tax assets and liabilities on a net basis or to realise and settle them simultaneously in each future period, when the significant deferred tax assets and liabilities are expected to be realised or settled.

1.4.5 Foreign Currencies

Both the functional and presentational currency of Red Rock Resources Plc is Sterling ("£"). Each Group entity determines its own functional currency and items, included in the Financial Statements of each entity, are measured, using that functional currency.

The functional currency of the foreign subsidiaries are Australian Dollars ("AUD"), the Congolese Franc, and Kenyan Shillings.

Transactions in currencies other than the functional currency of the relevant entity are initially recorded at the exchange rate, prevailing on the dates of the transaction. At each reporting date, monetary assets and liabilities, that are denominated in foreign currencies, are translated at the exchange rate, prevailing at the reporting date. Non-monetary assets and liabilities, carried at fair value that are denominated in foreign currencies, are translated at the rates, prevailing at the date when the fair value was determined. Gains and losses, arising on translation, are included in profit or loss for the period, except for exchange differences on non-monetary assets and liabilities, which are recognised directly in other comprehensive income, when the changes in fair value are recognised directly in other comprehensive income.

On consolidation, the assets and liabilities of the Group's overseas operations are translated into the Group's presentational currency at exchange rates, prevailing at the reporting date. Income and expense items are translated at the average exchange rates for the period, unless exchange rates have fluctuated significantly during the year, in which case the exchange rate at the date of the transaction is used. All exchange differences arising, if any, are recognised as other comprehensive income and are transferred to the Group's foreign currency translation reserve.

1.4.6 Share-Based Payments

Share Options

The Group operates an equity-settled share-based payment arrangement, whereby the fair value of services provided is determined indirectly by reference to the fair value of the instrument granted.

The fair value of options, granted to Directors and others in respect of services provided, is recognised as an expense in the Income Statement, with a corresponding increase in equity reserves – the share-based payment reserve, until the award has been settled and then make a transfer to share capital.

On exercise or lapse of share options, the proportion of the share-based payment reserve, relevant to those options, is transferred to retained earnings. On exercise, equity is also increased by the amount of the proceeds received.

The fair value is measured at grant date and charged over the vesting period, during which the option becomes unconditional.

The fair value of options is calculated using the Black-Scholes model, taking into account the terms and conditions upon which the options were granted. The exercise price is fixed at the date of grant.

Non-market conditions are performance conditions that are not related to the market price of the entity's equity instruments. They are not considered, when estimating the fair value of a share-based payment. Where the vesting period is linked to a non-market performance condition, the Group recognises the goods and services it has acquired during the vesting period, based on the best available estimate of the number of equity instruments expected to vest. The estimate is reconsidered at each reporting date, based on factors such as a shortened vesting period, and the cumulative expense is "trued up" for both the change in the number expected to vest and any change in the expected vesting period.

Market conditions are performance conditions that relate to the market price of the entity's equity instruments. These conditions are included in the estimate of the fair value of a share-based payment. They are not taken into account for the purpose of estimating the number of equity instruments that will vest. Where the vesting period is linked to a market performance condition, the Group estimates the expected vesting period. If the actual vesting period is shorter than estimated, the charge is accelerated in the period that the entity delivers the cash or equity instruments to the counterparty. When the vesting period is longer, the expense is recognised over the originally estimated vesting period.

Notes to the Financial Statements (continued)

for the year ended 30 June 2021

1. Principal Accounting Policies (continued)

1.4 Summary of Significant Accounting Policies (continued)

For other equity instruments, granted during the year (i.e. other than share options), fair value is measured on the basis of an observable market price.

Warrants or options, issued to parties other than employees, are valued based on the value of the service provided.

Share Incentive Plan

Where shares are granted to employees under the Share Incentive Plan, the fair value of services provided is determined indirectly by reference to the fair value of the free, partnership and matching shares, granted on the grant date. Fair value of shares is measured on the basis of an observable market price, i.e. share price as at grant date, and is recognised as an expense in the Income Statement on the date of the grant. For the partnership shares, the charge is calculated as the excess of the mid-market price on the date of grant over the employee's contribution.

1.4.7 Pension

The Group operates a defined contribution pension plan, which requires contributions to be made to a separately administered fund. Contributions to the defined contribution scheme are charged to profit or loss as they become payable.

1.4.8 Exploration Assets

Exploration assets comprise exploration and development costs incurred on prospects at an exploratory stage. These costs include the cost of acquisition, exploration, determination of recoverable reserves, economic feasibility studies and all technical and administrative overheads directly associated with those projects. These costs are carried forward in the Statement of Financial Position as non-current intangible assets less provision for identified impairments.

Recoverability of exploration and development costs is dependent upon successful development and commercial exploitation of each area of interest and will be amortised over the expected commercial life of each area once production commences. The Group and the Company currently have no exploration assets, where production has commenced.

The Group adopts the "area of interest" method of accounting, whereby all exploration and development costs, relating to an area of interest, are capitalised and carried forward until abandoned. In the event that an area of interest is abandoned, or if the Directors consider the expenditure to be of no value, accumulated exploration costs are written off in the financial year in which the decision is made. All expenditure incurred prior to approval of an application is expensed with the exception of refundable rent, which is raised as a receivable.

Upon disposal, the difference between the fair value of consideration receivable for exploration assets and the relevant cost within non-current assets is recognised in the Income Statement.

1.4.9 Impairment of Non-Financial Assets

The carrying values of assets, other than those to which IAS 36 "Impairment of Assets" does not apply, are reviewed at the end of each reporting period for impairment, when there is an indication that the assets might be impaired. Impairment is measured by comparing the carrying values of the assets with their recoverable amounts. The recoverable amount of the assets is the higher of the assets' fair value less costs to sell and their value-in-use, which is measured by reference to discounted future cash flow.

An impairment loss is recognised immediately in the Consolidated Statement of Comprehensive Income.

When there is a change in the estimates used to determine the recoverable amount, a subsequent increase in the recoverable amount of an asset is treated as a reversal of the previous impairment loss and is recognised to the extent of the carrying amount of the asset that would have been determined (net of amortisation and depreciation) had no impairment loss been recognised. The reversal is recognised in profit or loss immediately, unless the asset is carried at its revalued amount, in which case the reversal of the impairment loss is treated as a revaluation increase.

1.4.10 Finance Income/Expense

Finance income and expense is recognised as interest accrues, using the effective interest method. This is a method of calculating the amortised cost of a financial asset and allocating the interest income over the relevant period, using the effective interest rate, which is the rate that exactly discounts estimated future cash receipts or re-payments through the expected life of the financial asset or liability to the net carrying amount of the financial asset or liability.

1.4.11 Financial Instruments

The Group classifies its financial assets into one of the categories discussed below, depending on the purpose for which the asset was acquired. The Group's accounting policy for each category is as follows:

Notes to the Financial Statements (continued)

for the year ended 30 June 2021

1. Principal Accounting Policies (continued)

1.4 Summary of Significant Accounting Policies (continued)

Fair Value through Profit or Loss (FVTPL)

This category comprises in-the-money derivatives and out-of-the-money derivatives, where the time value offsets the negative intrinsic value. They are carried in the Statement of Financial Position at fair value, with changes in fair value recognised in the Consolidated Statement of Comprehensive Income in the finance income or expense line. Other than derivative financial instruments, which are not designated as hedging instruments, the Group does not have any assets held for trading nor does it voluntarily classify any financial assets as being at fair value through profit or loss.

Amortised Cost

These assets comprise the types of financial assets, where the objective is to hold these assets in order to collect contractual cash flows and the contractual cash flows are solely payments of principal and interest. They are initially recognised at fair value plus transaction costs that are directly attributable to their acquisition or issue and are subsequently carried at amortised cost, using the effective interest rate method, less provision for impairment. Impairment provisions, for current and non-current trade receivables, are recognised, based on the simplified approach within IFRS 9, using a provision matrix in the determination of the lifetime expected credit losses.

During this process, the probability of the non-payment of the trade receivables is assessed. This probability is then multiplied by the amount of the expected loss, arising from default to determine the lifetime expected credit loss for the trade receivables. For the receivables, which are reported net, such provisions are recorded in a separate provision account, with the loss being recognised in the Consolidated Statement of Comprehensive Income. On confirmation that the receivable will not be collectable, the gross carrying value of the asset is written off against the associated provision.

Impairment provisions, for receivables from related parties and loans to related parties, are recognised, based on a forward-looking expected credit loss model. The methodology, used to determine the amount of the provision, is based on whether there has been a significant increase in credit risk since initial recognition of the financial asset, based on analysis of internal or external information. For those where the credit risk has not increased significantly since initial recognition of the financial asset, twelve month expected credit losses along with gross interest income are recognised. For those for which credit risk has increased significantly, lifetime expected credit losses, along with the gross interest income, are recognised. For those that are determined to be credit impaired, lifetime expected credit losses, along with interest income on a net basis, are recognised.

The Group considers a financial asset in default, when contractual payments are 180 days past due. However, in certain cases, the Group may also consider a financial asset to be in default, when internal or external information indicates that the Group is unlikely to receive the outstanding contractual amounts in full, before taking into account any credit enhancements held by the Group. A financial asset is written off, when there is no reasonable expectation of recovering the contractual cash flows.

The Group's financial assets, measured at amortised cost, comprise trade and other receivables and cash and cash equivalents in the Consolidated Statement of Financial Position. Cash and cash equivalents include cash in hand, deposits held at call with banks, other short term highly liquid investments with original maturities of three months or less, and, for the purpose of the Statement of Cash Flows, bank overdrafts. Bank overdrafts are shown within loans and borrowings in current liabilities on the Consolidated Statement of Financial Position.

Fair Value through Other Comprehensive Income (FVTOCI)

The Group has a number of strategic investments in listed and unlisted entities, which are not accounted for as subsidiaries, associates or jointly controlled entities. For those investments, the Group has made an irrevocable election to classify the investments at fair value through other comprehensive income rather than through profit or loss as the Group considers this measurement to be the most representative of the business model for these assets. They are carried at fair value, with changes in fair value recognised in other comprehensive income, and accumulated in the fair value through other comprehensive income reserve. Upon disposal, any balance, within fair value through other comprehensive income reserve, is reclassified directly to retained earnings and is not reclassified to profit or loss.

Dividends are recognised in profit or loss, unless the dividend clearly represents a recovery of part of the cost of the investment, in which case, the full or partial amount of the dividend is recorded against the associated investments carrying amount.

Purchases and sales of financial assets, measured at fair value through other comprehensive income, are recognised on settlement date with any change in fair value between trade date and settlement date, being recognised in the fair value through other comprehensive income reserve.

Notes to the Financial Statements (continued)

for the year ended 30 June 2021

1. Principal Accounting Policies (continued)

1.4 Summary of Significant Accounting Policies (continued)

Fair Value Measurement

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value measurement is based on the presumption that the transaction to sell the asset or transfer the liability takes place either:

- In the principal market for the asset or liability; or
- In the absence of a principal market, in the most advantageous market for the asset or liability.

The principal or the most advantageous market must be accessible by the Group.

The fair value of an asset or a liability is measured, using the assumptions that market participants would use when pricing the asset or liability, assuming that market participants act in their economic best interest.

A fair value measurement, of a non-financial asset, takes into account a market participant's ability to generate economic benefits by using the asset in its highest and best use or by selling it to another market participant that would use the asset in its highest and best use.

The Group uses valuation techniques that are appropriate in the circumstances and for which sufficient data are available to measure fair value, maximising the use of relevant observable inputs and minimising the use of unobservable inputs.

All assets and liabilities, for which fair value is measured or disclosed in the Financial Statements, are categorised within the fair value hierarchy, described as follows, based on the lowest level input that is significant to the fair value measurement as a whole:

- Level 1 — Quoted (unadjusted) market prices in active markets for identical assets or liabilities;
- Level 2 — Valuation techniques for which the lowest level input that is significant to the fair value measurement is directly or indirectly observable; and
- Level 3 — Valuation techniques for which the lowest level input that is significant to the fair value measurement is unobservable.

For assets and liabilities that are recognised in the Financial Statements on a recurring basis, the Group determines, whether transfers have occurred between levels in the hierarchy by re-assessing categorisation (based on the lowest level input that is significant to the fair value measurement as a whole) at the end of each reporting period.

For the purpose of fair value disclosures, the Group has determined classes of assets and liabilities on the basis of the nature, characteristics and risks of the asset or liability and the level of the fair value hierarchy as explained above.

Financial Liabilities

The Group classifies its financial liabilities into one of two categories, depending on the purpose for which the liability was acquired:

Fair Value through Profit or Loss (FVTPL)

This category comprises out-of-the-money derivatives, where the time value does not offset the negative intrinsic value or any liabilities held for trading. They are carried in the consolidated statement of financial position at fair value with changes in fair value recognised in the Consolidated Statement of Comprehensive Income. The Group did not hold any such liabilities at the date of IFRS 9 adoption or at the end of the reporting year.

Other Financial Liabilities

Other financial liabilities include:

- Borrowings, which are initially recognised at fair value net of any transaction costs directly attributable to the issue of the instrument. Such interest-bearing liabilities are subsequently measured at amortised cost, using the effective interest rate method, which ensures that any interest expense over the period to repayment is at a constant rate on the balance of the liability carried in the Consolidated Statement of Financial Position. For the purposes of each financial liability, interest expense includes initial transaction costs and any premium payable on redemption as well as any interest or coupon payable while the liability is outstanding;
- Liability components of convertible loan notes are measured as described further below; and
- Trade payables and other short-term monetary liabilities, which are initially recognised at fair value and subsequently carried at amortised cost, using the effective interest method.

Notes to the Financial Statements (continued)

for the year ended 30 June 2021

1. Principal Accounting Policies (continued)

1.4 Summary of Significant Accounting Policies (continued)

1.4.12 Investments

Investments in subsidiaries are classified as non-current assets and included in the Statement of Financial Position of the Company at cost at the date of acquisition less any identified impairments.

For acquisitions of subsidiaries or associates achieved in stages, the Company re-measures its previously held equity interests in the acquiree at its acquisition-date fair value and recognises the resulting gain or loss, if any, in profit or loss. Any gains or losses, previously recognised in other comprehensive income, are transferred to profit and loss.

Investments in associates and joint ventures are classified as non-current assets and included in the Statement of Financial Position of the Company at cost at the date of acquisition less any identified impairment.

1.4.13 Dividend Income

Dividends, received from strategic investments, are recognised, when they become legally receivable. In case of interim dividends, this is when declared. In case of final dividends, this is when approved by the shareholders at the Annual General Meeting.

1.4.14 Share Capital

Financial instruments, issued by the Group, are classified as equity only to the extent that they do not meet the definition of a financial liability or financial asset. The Group's ordinary shares are classified as equity instruments.

1.4.15 Convertible Debt

The proceeds, received on issue of the Group's convertible debt, are allocated into their liability and equity components. The amount initially attributed to the debt component equals the discounted cash flows, using a market rate of interest that would be payable on a similar debt instrument that does not include an option to convert. Subsequently, the debt component is accounted for as a financial liability, measured at amortised cost until extinguished on conversion or maturity of the bond. The remainder of the proceeds is allocated to the conversion option and is recognised in the "Convertible debt option reserve" within shareholders' equity, net of income tax effects.

1.4.16 Warrants

Derivative contracts, that only result in the delivery of a fixed amount of cash or other financial assets for a fixed number of an entity's own equity instruments, are classified as equity instruments. When warrants are issued, attached to specific loan notes, the Company estimates the fair value of the issued warrants, using the Black-Scholes pricing model, taking into account the terms and conditions upon which the warrants were issued, value of such warrants is deducted from the balance of loan notes, a directly attributable transaction cost. Warrants, relating to equity finance and issued together with ordinary shares placement, are valued by residual method and treated as directly attributable transaction costs and recorded as a reduction of share premium account based on the fair value of the warrants. Warrants, classified as equity instruments, are not subsequently re-measured.

1.5 Significant Accounting Judgements, Estimates and Assumptions

The preparation of the Group's Consolidated Financial Statements, requires management to make judgements, estimates and assumptions that affect the reported amounts of revenues, expenses, assets and liabilities at the end of the reporting period. However, uncertainty, about these assumptions and estimates, could result in outcomes that require a material adjustment to the carrying amount of the asset or liability affected in future periods.

Significant Judgements in Applying the Accounting Policies

In the process of applying the Group's accounting policies, management has made the following judgements, which have the most significant effect on the amounts, recognised in the Consolidated Financial Statements:

Recognition of Holdings Less Than 20% as an Associate

The Company owns 15% of the issued share capital of Mid Migori Mining Company Ltd ("MMM"). Andrew Bell is a member of the board of MMM. In accordance with IAS 28, the Directors of the Company consider that, the agreements whereby the Company owns the beneficial interest in the Kenyan assets, and the input of resource by the Company in respect of drilling and analytical activities, to provide the Group with significant influence as defined by the standard. As such, MMM has been recognised as an associate for the years ended 30 June 2021, 30 June 2020 and 30 June 2019.

The effect of recognising MMM as an FVTOCI financial asset would be to decrease the profit by £25 (2020: decrease the profit by £25).

Notes to the Financial Statements (continued)

for the year ended 30 June 2021

1. Principal Accounting Policies (continued)

1.5 Significant Accounting Judgements, Estimates and Assumptions (continued)

Significant Accounting Estimates and Assumptions

The carrying amounts of certain assets and liabilities are often determined based on estimates and assumptions of future events. The key estimates and assumptions, that have a significant risk of causing a material adjustment to the carrying amounts of certain assets and liabilities within the next annual reporting period, include the impairment determinations, the useful lives of property, plant and equipment, the bad debt provision and the fair values of our financial assets and liabilities.

Fair value of Mineras Four Points Sales Proceeds Receivable

In estimating the fair value of the Company's future gold royalties from Colombia, the Directors have made assumptions about the future cash flows, which include the following key assumptions:

- Gold price (US\$/oz) – US\$1,750 (2020: US\$1,800);
- Discount rate – 10% (2020: 10%); and
- Annual production rate – 10,000oz (2020: 10,530oz)

The fair value is directly sensitive to any changes in the key assumptions.

Share-Based Payment Transactions

The Group measures the cost of equity-settled transactions with employees by reference to the fair value of the equity instruments at the date at which they are granted. The fair value of share options is determined using the Black-Scholes model. The model has its strengths and weaknesses and requires six inputs as a minimum: 1) the share price; 2) the exercise price; 3) the risk-free rate of return; 4) the expected dividends or dividend yield; 5) the life of the option; and 6) the volatility of the expected return. The first three inputs are normally, but not always, straightforward. The last three involve greater judgement and have the greatest impact on the fair value.

Impairment of Financial Assets

A financial asset, or a group of financial assets, is deemed to be impaired if, and only if, there is objective evidence of impairment as a result of one or more events that has occurred after the initial recognition of the asset (an incurred "loss event") and that loss event has an impact on the estimated future cash flows of the financial asset or the group of financial assets that can be reliably estimated. This determination requires significant judgement. In making this judgement, the Group evaluates, among other factors, the duration and extent to which fair value of an investment is less than its cost.

In the case of equity investments, classified as financial instruments with fair value movements through other comprehensive income (FVTOCI), objective evidence would include a significant or prolonged decline in the fair value of the investment below its cost. "Significant" is evaluated against the original cost of the investment and "prolonged" against the period in which the fair value has been below its original cost. Mining share prices typically have more volatility than most other shares and this is taken into account by management, when considering if a significant decline in the fair value of its mining investments has occurred. Management would consider that there is a prolonged decline in the fair value of an equity investment, when the period of decline in fair value has extended to beyond the expectation management have for the equity investment. This expectation will be influenced particularly by the Company development cycle of the investment.

Impairment of Non-financial Assets

The Group follows the guidance of IAS 36 to determine, when a non-financial asset is impaired. The Group assesses, at each reporting date, whether there is an indication that an asset may be impaired. If any indication exists, or when annual impairment testing for an asset is required, the Group estimates the asset's recoverable amount. An asset's recoverable amount is the higher of an asset's or cash-generating unit's (CGU) fair value less costs to sell and its value in use. Recoverable amount is determined for an individual asset, unless the asset does not generate cash inflows that are largely independent of those from other assets or groups of assets. When the carrying amount of an asset or CGU exceeds its recoverable amount, the asset is considered impaired and is written down to its recoverable amount.

In assessing value in use, the estimated future cash flows are discounted to their present value, using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset. In determining fair value less costs to sell, recent market transactions are taken into account. If no such transactions can be identified, an appropriate valuation model is used. These calculations are corroborated by valuation multiples, quoted share prices for publicly traded companies or other available fair value indicators.

The Group bases its impairment calculation on detailed projections, which are prepared separately for each of the Group's CGUs to which the individual assets are allocated. These projections generally cover a period of five years with a terminal value or salvage value applied.

Notes to the Financial Statements (continued)

for the year ended 30 June 2021

1. Principal Accounting Policies (continued)

1.5 Significant Accounting Judgements, Estimates and Assumptions (continued)

Impairment losses of continuing operations are recognised in the Income Statement in expense categories, consistent with the function of the impaired asset.

For investments in associates and joint ventures, the Group assesses impairment after the application of the equity method.

2. Segmental Analysis

The Group consider its mining and exploration activities as separate segments. These are in addition to the investment activities, which continue to form a significant segment of the business.

The Group has made a strategic decision to concentrate on several commodities, ranging from gold to manganese and copper/cobalt, and as such further segmental analysis by commodity has not been considered useful or been presented. Transfer prices, between operating segments, are on an arm's length basis in a manner similar to transactions with third parties.

5. Finance Income/(Costs), Net

Group	2021 £'000	2020 £'000
Interest income (other than MFP finance income)	290	311
Dividend income	126	419
Interest expense	(131)	(196)
Total finance income (other than MFP finance income)	285	534
MFP finance expense / (income)	—	19
Total finance income	285	553

Interest income (other than Mineras Four Points ("MFP") finance income) comes from non-current receivables from an associate. Please refer to note 17 and note 18 respectively. Dividend income represents the money received from the Group's 0.53% holding in Jupiter Mines Limited (2020: holding in Jupiter Mines Limited of 0.81%).

6. Project Development and Other Project Expenses

Project development expenses include costs, incurred during the assessment and due diligence phases of a project, when material uncertainties exist regarding, whether the project meets the Company's investment and development criteria and, whether as a result, the project will be advanced further. Other Project Expenses include costs associated with current and previous projects and include remediation and administration expenses.

	Group and Company	
	2021 £'000	2020 £'000
Project development expenses		
VUP (Congo)	392	—

Galaxy (Congo)	14	—
Kilbowe (Congo)	—	32
Luanshimba (Congo)	19	—
Kinsevere	92	—
Power project (Zambia)	—	10
Total project development expenses	559	42

Notes to the Financial Statements (continued)

for the year ended 30 June 2021

6. Project Development and Other Project Expenses (continued)

Other project costs		
Mid Migori Mines (Kenya)	40	158
Greenland	126	158
Other	139	3
Total other project expenses	305	319

7. Taxation

	2021 £'000	2020 £'000
Current period taxation on the Group		
UK corporation tax at 19.00% (2020: 19.00%) on profit/(loss) for the period	—	—
	—	—
Deferred tax		
Origination and reversal of temporary differences	—	—
Deferred tax assets not recognised	—	—
Tax credit	—	—
Factors affecting the tax charge/(credit) for the year		
Profit/(loss) on ordinary activities before taxation	(1,699)	5,156
Profit/(loss) on ordinary activities at the average UK standard rate of 19.00% (2020: 19.00%)	(323)	980
Income not taxable	—	(1,115)
Effect of expenditure not deductible	67	58
Losses brought forward utilised in the current period	—	71
Tax losses carried forward	256	6
Tax charge	—	—

No deferred tax asset, relating to the Group's investments, was recognised in the Statement of Comprehensive Income (2020: £nil). No deferred tax charge has been made due to the availability of trading losses. Unutilised tax losses, arising in the UK, amount to £4.1 million (2020: £3.9 million).

8. Staff Costs

The aggregate employment costs of staff (including Directors) for the year in respect of the Group was:

	2021 £'000	2020 £'000
Wages and salaries	322	219
Pension	20	18
Social security costs	28	19
Employee share-based payment charge	66	14
Total staff costs	436	270

The average number of Group employees (including Directors) during the year was:

	2021 Number	2020 Number
Executives	4	4
Administration	1	1
Exploration	1	—
	6	5

The key management personnel are the Directors and their remuneration is disclosed within note 9.

360,000 free shares were issued to five employees (2020: nil), including Directors. 4,589,418 partnership and 9,178,836 matching shares, making the total of 15,568,254, were issued in the year ended 30 June 2021 (2020: 4,905,930 partnership, 9,811,860 matching, 14,717,790 total).

Notes to the Financial Statements (continued)

for the year ended 30 June 2021

9. Directors' Emoluments

2021	Directors' fees £'000	Directors' fees - discretionary bonus £'000	Consultancy fees £'000	Share Incentive Plan £'000	Pension contributions £'000	Social security costs £'000	Total £'000
Executive Directors							
A R M Bell	88	17	15	7	7	10	144
Other Directors

S Quinn	19	7	—	7	2	2	37
	187	46	15	28	16	20	312

2020	Directors' fees £'000	Directors' fees - discretionary bonus, £'000	Consultancy fees £'000	Share Incentive Plan £'000	Pension contributions £'000	Social security costs £'000	Total £'000
Executive Directors							
A R M Bell	82	3	15	4	7	10	121
Other Directors							
S Kaintz	65	3	—	4	6	7	85
M C Nott	18	1	—	3	2	1	25
S Quinn	18	1	—	3	1	2	26
	183	8	15	14	16	20	257

The number of Directors, who exercised share options in the year was nil (2020: nil). During the year, the Company contributed to a Share Incentive Plan more fully described in the Directors' Report on page 13.

10. Earnings Per Share

The basic earnings/(loss) per share is derived by dividing the loss for the year, attributable to ordinary shareholders of the Parent by the weighted average number of shares in issue. Diluted earnings/(loss) per share is derived by dividing the loss for the year, attributable to ordinary shareholders of the Parent by the weighted average number of shares in issue plus the weighted average number of ordinary shares that would be issued on conversion of all dilutive potential ordinary shares into ordinary shares.

	2021	2020
(Loss)/profit attributable to equity holders of the parent company, £	(1,698,983)	5,163,595
Adjusted for interest accrued on the convertible notes	—	102,435
Adjusted (loss) / profit attributable to equity holders of the parent company used for diluted EPS calculation	(1,698,983)	5,266,030
Weighted average number of ordinary shares of £0.0001 in issue, used for basic EPS	939,293,986	679,826,248
from potential ordinary shares that would have to be issued, if all loan notes, convertible at the discretion of the noteholder, converted at the beginning of the period or at the inception of the instrument, whichever is later	—	144,640,518
Weighted average number of ordinary shares of £0.0001 in issue, including potential ordinary shares, used for diluted EPS	939,293,986	824,466,766

Notes to the Financial Statements (continued)

for the year ended 30 June 2021

10. Earnings Per Share (continued)

	2021	2020
(Loss)/earnings per share – basic	(0.18 pence)	0.76 pence
(Loss)/earnings per share – fully diluted	(0.18 pence)	0.64 pence

At 30 June 2021, the effect of all the instruments (fully vested and in the money) is anti-dilutive as it would lead to a further reduction of loss per share, therefore, they were not included into the diluted loss per share calculation.

Options and warrants, that could potentially dilute basic EPS in the future, but were not included in the calculation of diluted EPS for the periods presented:

	2021	2020
Share options granted to employees – either not vested and/or out of the money	63,320,000	48,320,000
Number of warrants given to shareholders as a part of placing equity instruments – out of the money	380,197,618	101,740,195
Total number of contingently issuable shares, that could potentially dilute basic earnings per share in future, and anti-dilutive potential ordinary shares, that were not included into the fully diluted EPS calculation	443,517,618	150,060,195

There were no ordinary share transactions such as share capitalisation, share split or bonus issue after 30 June 2021, that could have changed the EPS calculations significantly, if those transactions had occurred before the end of the reporting period.

Notes to the Financial Statements (continued)

for the year ended 30 June 2021

The Company, at 30 June 2021 and at 30 June 2020, had significant influence by virtue other than shareholding over 20% over Mid Migori Mining Company Ltd.

Company	Country of incorporation	Class of shares held	Percentage of issued capital	Accounting year ended
Mid Migori Mining Company Limited	Kenya	Ordinary	15.00%	30 September 2020

Summarised financial information for the Company's associates and joint ventures, where available, is given below:

For the year as at 30 June 2021:

Company	Revenue £'000	Loss £'000	Assets £'000	Liabilities £'000
Mid Migori Mining Company Limited	—	—	2,559	(2,623)

For the year as at 30 June 2020:

Company	Revenue £'000	Profit £'000	Assets £'000	Liabilities £'000
Mid Migori Mining Company Limited	—	—	2,559	(2,623)

Mid Migori Mining Company Ltd

The Company owns 15% of the issued share capital of Mid Migori Mining Company Ltd ("MMM"), incorporated in Kenya. The Company has entered into agreements under which it manages MMM's development projects and has representation on the MMM board. In accordance with IAS 28, the involvement with MMM meets the definition of significant influence and, therefore, has been accounted for as an associate (note 1.5).

VUP Musonoi Mining SA

On 2 March 2019, Vumilia Pendeza S.A. ("VUP") and Bring Minerals S.A.U. ("B.Min"), the joint venture partners, Red Rock Resources Congo S.A.U. ("RRRC"), a wholly owned local subsidiary of the Company, signed the "Statutes of VUP Musonoi Mining SA" ("VMM S.A."), the joint venture company (incorporated in the Democratic Republic of Congo) through which the JV Project will be pursued. RRRC owns 50.1% of VMM S.A, however, the entity is operated jointly and managed by the board of Musonoi Mining S.A. with no party classified as having formal control. The Company announced on 16 November 2021 that it had served an Ordonnance de Saisie Conservatoire (precautionary attachment) order on VUP and taken other measures locally to protect its interests as relates to this joint venture.

Notes to the financial statements (continued)

for the year ended 30 June 2021

12. Investments in Associates and Joint Ventures (continued)

	Mid Migori Mining Company Limited £'000	VUP Musonoi Mining SA £'000	Total £'000
Cost			
At 1 July 2020	1,082	583	1,665
Additions during the year	1	—	1
At 30 June 2021	1,083	583	1,666

At 30 June 2021 and 30 June 2020	1,002	583	1,585

13. Exploration Assets

Group and Company	2021 £'000	2020 £'000
At 1 July	11,858	235
Additions	1,657	116
Amounts payable under earn-in agreement	—	2,028
Reclassification from non-current financial assets	—	9,479
At 30 June	13,515	11,858

Exploration assets were capitalised:

- For the Galaxy (DRC) project since 17 October 2018, when exploration commenced at the project license in the DRC; and
- For the VUP (DRC) project since 22 November 2018, when the joint venture agreement was finalised.

Under a 2018 agreement with MMM partner Kansai Mining Corporation Ltd, in the event of a renewal or reissue of licenses, covering the relevant assets, the Company was within three months to make further payment of US\$2.5 million (£2.028 million) to Kansai Mining Corporation Ltd. For further details of the payments see note 25.

Management have considered the recoverability of this asset and have considered the recent announcement regarding the restoration of the Kenyan gold licenses as well as the potential to complete a transaction, involving these assets and considers the likely proceeds from such a transaction would exceed the value of the exploration property.

Notes to the Financial Statements (continued)

for the year ended 30 June 2021

14. Financial Instruments with Fair Value Through Other Comprehensive Income (FVTOCI)

	Group		Company	
	2021 £'000	2020 £'000	2021 £'000	2020 £'000

Unquoted investments at fair value	174	138	174	138
	1,755	2,755	778	1,771

Jupiter Mines Limited

During the reporting year, Jupiter Mines Limited has made distributions recognised as dividends and included into the Dividend line in the Consolidated Income Statement in the amount of £0.126 million (2020: £0.419 million).

At 30 June 2021, Red Rock retains a 0.53% stake in the share capital of Jupiter Mines Limited (2020:0.81%).

Elephant Oil Ltd

Following discussions with the management team of Elephant Oil Ltd and internal analysis, conducted on the Company's projects and prospects for onshore oil exploration activities in Benin, the fair value of the investment held is £173,866 (2020: £137,500).

Corcel Plc

During the reporting year, the Company sold 3,383,633 shares in Corcel Plc to maintain the Company's working capital. Gain on sale of these shares recognised in the Statement of Other Comprehensive Income amounted to £65,606.

Juno Minerals Limited

At 30 June 2021, Red Rock retains a 0.29% stake in the share capital of Juno Minerals Limited (2020:nil).

Details of the fair value measurement hierarchy are included in Note 23.

Notes to the Financial Statements (continued)

for the year ended 30 June 2021

15. Financial Instruments with Fair Value Through Profit and Loss

Group and Company	30 June 2021 £'000	30 June 2020 £'000
Warrants in Soma Gold Corp. ordinary shares	—	3
	—	3

At 30 June 2021, the Company was holding no warrants in Soma Gold Corp. (formerly Para Resources Inc.) (2020: 232,500). The warrants held in Soma Gold Corp expired on 4 June 2021.

Warrant exercise price CAD	Number of warrants	Grant date	Expiry date	Fair value of individual warrant CAD
0.30	232,500	4 June 2018	4 June 2021	0.024

The following information is relevant, in the determination of the fair value of the warrants, granted during the year:

Valuation model	Black-Scholes model
Warrant exercise price, CAD\$	0.30
Weighted average share price at valuation date, CAD\$	0.25
Weighted average contractual life, years	0.93
Expected volatility, %	160%
Expected dividend growth rate, %	0
Risk-free interest rate (Canadian Government three-year bond), %	0.158

Calculation of volatility involves significant judgement by the Directors and it is based on the Para Resources Inc trading data, directly preceding the grant date.

16. Cash and Cash Equivalents

Group	30 June 2021 £'000	30 June 2020 £'000
Cash in hand and at bank	457	53
	457	53

For the purpose of the statement of cash flows, cash and cash equivalents comprise cash at bank and in hand.

Company	30 June 2021 £'000	30 June 2020 £'000
Cash in hand and at bank	366	32
	366	32

Credit Risk

The Group's exposure to credit risk, or the risk of counterparties defaulting, arises mainly from notes and other receivables. The Directors manage the Group's exposure to credit risk by the application of monitoring procedures on an ongoing basis. For other financial assets (including cash and bank balances), the Directors minimise credit risk by dealing exclusively with high credit rating counterparties. The Company defines default through a framework of qualitative "unlikelihood to pay" with a more objective 90 days past due timeline. The qualitative criteria allows the Company to identify exposure early on in the process, with the 90 day past due limit providing a clear final metric.

Notes to the Financial Statements (continued)

for the year ended 30 June 2021

16. Cash and Cash Equivalents (continued)

Credit Risk Concentration Profile

The Group's receivables do not have significant credit risk exposure to any single counterparty or any group of counterparties, having similar characteristics. The Directors define major credit risk as exposure to a concentration exceeding 10% of a total class of such asset.

The Company maintains its cash reserves in Coutts & Co, which maintains an A-1 credit rating from Standard & Poor's.

17. Non-Current Receivables

	Group 2021 £'000	Group 2020 £'000	Company 2021 £'000	Company 2020 £'000
MFP sale proceeds	1,344	1,432	1,341	1,429
	1,344	1,432	1,341	1,429

The Mineras Four Points ("MFP") sale proceeds represent the fair value of the non-current portion of the deferred consideration receivable for the sale of MFP. The fair value was estimated based on the consideration offered by the buyer adjusted to its present value based on the timing for which the consideration is expected to be received. The most significant inputs are the offer price per tranches, discount rate and estimated royalty stream. The estimated royalty stream takes into account current production levels, estimates of future production levels and gold price forecasts.

18. Other Receivables

	Group		Company	
	2021 £'000	2020 £'000	2021 £'000	2020 £'000

Total trade and other payables	1,075	3,345	1,043	3,316
Intra-group borrowings	—	—	1,079	276
Short-term borrowings	969	1,078	27	925
Total current liabilities	2,044	4,423	2,149	4,517

During the year, on 6 November 2020, the Company's 100% owned subsidiary, RRR Coal Ltd, refinanced its existing loan facility with Riverfort Global Opportunities PCC Limited and YA II PN Ltd, increasing the total amount available for draw-down to USD 2.0 million, and drawing down an initial gross amount of USD 1.0 million with additional tranches available at the lenders' absolute discretion. The notes are secured on 6,302,000 shares in Jupiter Mines Limited as well as 20,000,000 shares in Power Metal Resources Plc, which were transferred from the Company to an escrow account for the duration of the loan as well as by a corporate guarantee, executed by Red Rock Resources Plc. The notes carry an interest rate of 10% and come with a 7.5% implementation fee and are repayable over a six-month period, starting in June 2021.

20. Share Capital of the Company

The share capital of the Group and the Company is as follows:

	2021 £'000	2020 £'000
Authorized, issued and fully paid		
1,216,708,801 (2020: 696,767,452) ordinary shares of £0.0001 each	122	70
2,371,116,172 deferred shares of £0.0009 each	2,134	2,134
6,033,861,125 A deferred shares of £0.000096 each	579	579
As at 30 June	2,835	2,783

As at 30 June 2021 – ordinary shares of £0.0001 each	1,216,708,801	122

Ordinary shares represent the Company's basic voting rights and reflect the equity ownership of the Company. Ordinary shares carry one vote per share and each share gives equal right to dividends. These shares also give right to the distribution of the Company's assets in the event of winding-up or sale.

Subject to the provisions of the Companies Act 2006, the deferred shares may be cancelled by the Company, or bought back for £1 and then cancelled. The deferred shares are not quoted and carry no rights whatsoever.

Warrants

At 30 June 2021, the Company had 380,197,618 warrants in issue (2020: 101,740,195) with a weighted average exercise price of £0.0015 (2020: £0.0087). Weighted average remaining life of the warrants, at 30 June 2021, was 582 days (2020: 631 days). All the warrants were issued by the Group to its shareholders in the capacity of shareholders and, therefore, are outside of IFRS 2 scope.

Group and Company	2021 number of warrants	2020 number of warrants
Outstanding at the beginning of the year	101,740,195	109,552,695
Granted during the period	323,322,618	57,500,000
Exercised during the period	(44,865,195)	-
Cancelled during the period	—	(57,500,000)
Lapsed during the period	—	(7,812,500)
Outstanding at the end of the year	380,197,618	101,740,195

Notes to the Financial Statements (continued)

for the year ended 30 June 2021

20. Share Capital of the Company Continued

During the year ended 30 June 2021, the Company had the following warrants to subscribe for shares in issue:

Grant date	Expiry date	Warrant exercise price, £	Number of warrants
10 Dec 2019	19 Dec 2022	0.009	56,875,000
28 Sep 2020	27 Mar 2023	0.012	137,500,000
6 Nov 2020	6 Nov 2023	0.016	8,000,000
6 Nov 2020	6 Nov 2023	0.024	8,000,000
18 Nov 2020	17 Nov 2023	0.007	71,428,571
12 Feb 2021	12 Feb 2023	0.020	47,619,047
1 Mar 2021	18 Mar 2023	0.020	50,775,000
Total warrants in issue at 30 June 2021			380,197,618

The aggregate fair value, related to the share warrants granted during the reporting period, was £1,195,797 (2020: £nil).

Capital Management

Management controls the capital of the Group in order to control risks, provide the shareholders with adequate returns and ensure that the Group can fund its operations and continue as a going concern. The Group's debt and capital includes ordinary share capital and financial liabilities, supported by financial assets (note 23). There are no externally imposed capital requirements. Management effectively manages the Group's capital by assessing the Group's financial risks and adjusting its capital structure in response to changes in these risks and in the market. These responses include the management of debt levels, distributions to shareholders and share issues. There have been no changes in the strategy, adopted by management to control the capital of the Group since the prior year.

21. Reserves

Share Premium

The share premium account represents the excess of consideration, received for shares issued above their nominal value net of transaction costs.

Foreign Currency Translation Reserve

The translation reserve represents the exchange gains and losses that have arisen from the retranslation of overseas operations.

Retained Earnings

Retained earnings represent the cumulative profit and loss net of distributions to owners.

Fair Value Through Other Comprehensive Income Financial Assets Revaluation Reserve

The available for sale trade investments reserve represents the cumulative revaluation gains and losses in respect of available for sale trade investments.

Share-Based Payment Reserve

The share-based payment reserve represents the cumulative charge for options granted, still outstanding and not exercised.

Warrant Reserve

The warrant reserve represents the cumulative charge for warrants granted, still outstanding and not exercised.

22. Share-Based Payments

Employee Share Options

In prior years, the Company established employee share option plans to enable the issue of options as part of the remuneration of key management personnel and Directors to enable them to purchase ordinary shares in the Company. Under IFRS 2 "Share-based Payments", the Company determines the fair value of the options issued to Directors and employees as remuneration and recognises the amount as an expense in the statement of income with a corresponding increase in equity.

At 30 June 2021, the Company had outstanding options to subscribe for ordinary shares as follows:

Notes to the Financial Statements (continued)

for the year ended 30 June 2021

22. Share-Based Payments (continued)

	Options issued 14 June 2016 exercisable at 0.45 pence per share expiring 29 January 2022	Options issued 13 January 2017 exercisable at 0.8p per share, expiring on 13 January 2023	Options issued on 24 August 2020 at 0.2p per share, expiring on 19 August 2025	Options issued on 24 August 2020 at 0.25p per share, expiring on 19 August 2025	Total

	Company and Group			
	2021		2020	
	Number of options	Weighted average exercise price pence	Number of options	Weighted average exercise price pence
Outstanding at the beginning and the end of the year	48,320,000	0.70	48,320,000	0.70
Options issued in the year	21,000,000	0.225	—	—
Options lapsed in the year	(6,000,000)	0.80	—	—
Of them vested and exercisable	63,320,000	0.46	24,160,000	0.70

21,000,000 share options were granted by the Company in the reporting year (2020: none). The weighted average fair value of each option granted during the year was £0.002 (2020: nil). The exercise price of options, outstanding at 30 June 2021, ranged between £0.0020 and £0.0045 (2020: £0.0045 and £0.008). Their weighted average contractual life was 2.41 years (2020: 2.28 years).

Share-based remuneration expense, related to the share options grant, is included in the administration expenses line in the Consolidated Income Statement in the amount of £42,000 (2020: nil).

Share Incentive Plan

In January 2012, the Company implemented a tax efficient Share Incentive Plan, a government approved scheme, the terms of which provide for an equal reward to every employee, including Directors, who have served for three months or more at the time of issue. The terms of the plan provide for:

- Each employee to be given the right to subscribe any amount up to £150 per month with Trustees, who invest the monies in the Company's shares ("Partnership Shares");
- The Company to match the employee's investment by contributing an amount equal to double the employee's investment ("Matching Shares"); and
- The Company to award free shares to a maximum of £3,600 per employee per annum ("Free Shares").

The subscriptions remain free of taxation and national insurance if held for five years.

All such shares are held by Share Incentive Plan Trustees and the ordinary shares cannot be released to participants until five years after the date of the award.

During the financial year, a total of 13,768,254 Partnership and Matching Shares were awarded and 1,800,000 Free Shares (2020: 14,717,790 Free, Partnership and Matching Shares were awarded) with a fair value of £0.00155 for the Partnership and the Matching Shares and £0.01 for the Free Shares (2020: £0.00145), resulting in a share-based payment charge of £39,341 (2020: £14,227), included in the administration expenses line in the Income Statement.

Notes to the Financial Statements (continued)

for the year ended 30 June 2021

23. Financial Instruments

23.1 Categories of Financial Instruments

The Group and the Company hold a number of financial instruments, including bank deposits, short-term investments, loans and receivables, borrowings and trade payables. The carrying amounts for each category of financial instrument are as follows:

30 June	Group 2021 £'000	Group 2020 £'000	Company 2021 £'000	Company 2020 £'000
Financial assets				
Available for sale financial assets at fair value through OCI				
Unquoted equity shares	174	138	174	138
Quoted equity shares	1,581	2,617	604	1,633
Total available for sale financial assets at fair value through OCI	1,755	2,755	778	1,771
Financial assets FVTPL (Para warrants)	—	3	—	3
Total financial assets carried at fair value through profit and loss	—	3	—	3
Cash and cash equivalents	457	53	366	32
Loans and receivables				
Non-current receivables	1,344	1,432	1,950	1,429
Other receivables – current	560	544	365	715
Total loans and receivables carried at amortised cost	1,904	1,976	2,315	2,144
Total financial assets	4,116	4,787	3,459	3,950
Total current financial assets	1,067	601	731	750
Total non-current financial assets	3,099	4,186	2,728	3,200
Financial liabilities				
Short-term borrowings, including intra-group	969	1,078	1,106	1,201
Long-term borrowings	731	—	731	—
Trade and other payables, excluding accruals	954	3,346	803	3,317
Total current financial liabilities	2,654	4,424	2,640	4,518

Other Receivables and Trade Payables

Management assessed that fair values of other receivables and trade and other payables approximate their carrying amounts largely due to the short-term maturities of these instruments.

Non-Current Receivables

Long-term fixed-rate receivables are evaluated by the Group, based on parameters such as interest rates, recoverability and risk characteristics of the financed project. Based on this evaluation, allowances are taken into account for any expected losses on these receivables.

Loans and Borrowings

The carrying value of interest-bearing loans and borrowings is determined by calculating present values at the reporting date, using the issuer's borrowing rate.

The carrying value of current financial liabilities in the Company is not materially different from that of the Group.

23.2 Fair Values

Financial assets and financial liabilities, measured at fair value in the Statement of Financial Position, are grouped into three levels of a fair value hierarchy. The three levels are defined based on the observability of significant inputs to the measurement as follows:

- Level 1: Quoted (unadjusted) market prices in active markets for identical assets or liabilities;
- Level 2: Valuation techniques for which the lowest level input, that is significant to the fair value measurement, is directly or indirectly observable; and
- Level 3: Valuation techniques for which the lowest level input, that is significant to the fair value measurement, is unobservable.

Notes to the Financial Statements (continued)

for the year ended 30 June 2021

23. Financial Instruments (continued)

23.2 Fair Values (continued)

The carrying amount of the Company's financial assets and liabilities is not materially different to their fair value. The fair value of financial assets and liabilities is included at the amount at which the instrument could be exchanged in a current transaction between willing parties, other than in a forced or liquidation sale. Where a quoted price in an active market is available, the fair value is based on the quoted price at the end of the reporting period. In the absence of a quoted price in an active market, the Group uses valuation techniques, that are appropriate in the circumstances, and for which sufficient data are available to measure fair value, maximising the use of relevant observable inputs and minimising the use of unobservable inputs.

The following table provides the fair value measurement hierarchy of the Group's assets and liabilities.

Group 30 June 2021	Level 1 £'000	Level 2 £'000	Level 3 £'000	Total £'000

FVTPL (Para warrants)	—	—	3	3

23.3 Financial Risk Management Policies

The Directors monitor the Group's financial risk management policies and exposures and approve financial transactions.

The Directors' overall risk management strategy seeks to assist the consolidated Group in meeting its financial targets, while minimising potential adverse effects on financial performance. Its functions include the review of credit risk policies and future cash flow requirements.

Specific Financial Risk Exposures and Management

The main risks, the Group are exposed to through its financial instruments, are credit risk and market risk, consisting of interest rate risk, liquidity risk, equity price risk and foreign exchange risk.

Credit Risk

Exposure to credit risk, relating to financial assets, arises from the potential non-performance by counterparties of contract obligations that could lead to a financial loss for the Group.

Credit risk is managed through the maintenance of procedures (such procedures include the utilisation of systems for the approval, granting and renewal of credit limits, regular monitoring of exposures against such limits and monitoring of the financial liability of significant customers and counterparties), ensuring, to the extent possible, that customers and counterparties to transactions are of sound creditworthiness. Such monitoring is used in assessing receivables for impairment.

Notes to the Financial Statements (continued)

for the year ended 30 June 2021

23. Financial Instruments (continued)

23.3 Financial Risk Management Policies (continued)

Risk is also minimised through investing surplus funds in financial institutions that maintain a high credit rating, or in entities that the Directors have otherwise cleared as being financially sound.

Other receivables, which are neither past due nor impaired, are considered to be of high credit quality.

The consolidated Group does have a material credit risk exposure with Mid Migori Mining Company Ltd, an associate of the Company. See note 1.5, "Significant accounting judgements, estimates and assumptions" for further details.

Liquidity Risk

Liquidity risk arises from the possibility that the Group might encounter difficulty in settling its debts or otherwise meeting its obligations related to financial liabilities. The Group manages this risk through the following mechanisms:

- Monitoring undrawn credit facilities;
- Obtaining funding from a variety of sources; and
- Maintaining a reputable credit profile.

The Directors are confident that adequate resources exist to finance operations for commercial exploration and development and that controls over expenditure are carefully managed.

Management intend to meet obligations as they become due through ongoing revenue streams, the sale of assets, the issuance of new shares, the collection of debts owed to the Company and the drawing of additional credit facilities.

Market Risk

Interest Rate Risk

The Company is not exposed to any material interest rate risk.

Equity Price Risk

Price risk relates to the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market prices largely due to demand and supply factors for commodities, but also include political, economic, social, technical, environmental and regulatory factors.

Foreign Currency Risk

The Group's transactions are carried out in a variety of currencies, including Sterling, Australian Dollar, US Dollar, Kenyan and Shilling.

To mitigate the Group's exposure to foreign currency risk, non-Sterling cash flows are monitored. The Group does not enter into forward exchange contracts to mitigate the exposure to foreign currency risk as amounts paid and received in specific currencies are expected to largely offset one another and the currencies most widely traded in are relatively stable.

The Directors consider the balances, most susceptible to foreign currency movements, to be financial assets with FVTOCI.

These assets are denominated in the following currencies:

Group	GBP	AUD	USD	CAD	Other	Total
30 June 2021	£	£	£	£	£	£

Significant non-cash transactions from financing activities, in relation to raising new capital, are disclosed in note 20.

Significant non-cash transactions from operating activities were as follows:

- Impairment of other receivables in the amount of £nil (2020: £0.249 million);
- Income recognised from the reversal of previous impairment in the amount of £nil (2020: £5.28 million); and
- Income recognised from forgiven creditors in the amount of £nil (2020: £0.551 million).

25. Significant Agreements and Transactions

The following are the significant agreements and transactions recently undertaken having an impact in the year under review. For the sake of completeness and of clarity, some events after the reporting year may be included here and in note 27.

Kenya Licensing

On 17 August 2020, the anticipated renewals of Prospecting Licenses PL/2018/0202 and PL/2018/0203 (formerly SPLs 122 and 202) had been received for a period of three years from 2 August 2020.

Performance Option Award

On 24 August 2020, the Company announced the grant of 21,000,000 performance options to Directors and key staff, representing in aggregate 3.01% of the existing share capital of the Company, split between two pools of 10,500,00 performance options at a price of £0.002 per share and £0.0025 per share. A pool of 6,000,000 options has been created for distribution at the Board's discretion to key consultants and advisors.

Option over Slovak Gold Assets

On 7 September 2020, the Company announced that it had entered into an option over former gold and silver mining and exploration assets at Zlata Bana, Slovakia. A EUR 10,000 payment was made for a due diligence period to 21 September 2020. Red Rock then made a payment EUR 23,000 in order to acquire a 50% interest in the Zlata Bana License, covering an area of approximately 12 sq km. Upon exercise of the option, Red Rock would acquire a 50% interest in the other assets, including interests in land and buildings, vehicles and mining equipment, a permit over a mineral stockpile and mining information and data. The consideration, for exercise of the option, would be the issue upon the execution of documentation to transfer the interest in the assets ("Transfer") of EUR 250,000 of new Red Rock shares at an issue price equal to the prior 5 day average VWAP. A further issue of EUR 100,000 of new Red Rock shares would occur upon completion of the process of Transfer, at an issue price per share equal to the 5 day prior average VWAP. A Joint Venture will be established between Red Rock and Mr Lubomir Konkol. Red Rock will be responsible for certain expenditures ("Committed Expenditure") of the Joint Venture in the period after execution of the option, which is expected to amount to not less than EUR 100,000 in 2020.

Update on Jupiter Mines Limited Dividend and Iron Ore Spin Off

On 7 September 2020, the Company announced that the Board of Jupiter Mines Limited had approved the execution of the IPO of its Central Yilgarn Iron Ore Assets. Jupiter Mines Limited also announced that the Board of Tshipi e Ntle had declared a dividend to its shareholders of ZAR 330 million for the first half of FY2021. Jupiter Mines Limited will receive ZAR156 million and ZAR25 million in marketing profits.

Financing to Raise £1,000,000

On 28 September 2020, the Company announced that it had raised £1,000,000 by way of a placing of 125,000,000 new ordinary shares of £0.0001 each at a price of £0.008 per share with 1 for 1 warrants exercisable at a price of £0.012 per share for thirty months. 12,500,000 warrants were issued to First Equity Ltd in part payment for its services as placing agent.

for the year ended 30 June 2021

- The key management personnel are the Directors and their remuneration is disclosed within note 9.

27. Significant Events After the Reporting Period

On 26 July 2021, the Company announced the appointment to the Board of Alex Borrelli as an independent Non-Executive Director with immediate effect.

On 29 September 2021, the Company announced that it had disposed of a substantial part of its remaining holding in Jupiter Mines Limited through market sales at an average price of AUD 0.304 per share for proceeds of AUD 2,327,052.70 (approximately £1,239,489.34). The Company retains 5,870,693 Jupiter Mines Limited shares, with the current share price of Jupiter Mines Limited at AUD 0.225, which is 26% below the average price of Red Rock's recent sales.

On 18 October 2021, the Company announced that it had made applications for five exploration permits through a wholly owned Cote d'Ivoire subsidiary LacGold Resources SARL. The five licenses area totalling 1,907.07 square km were selected, based on a detailed and comprehensive screening and ranking of possible target areas.

On 7 December 2021 the Company announced that it had exchanged its shares in Red Rock Australasia for 50.1% of the newly formed New Ballarat Gold Corporation Plc, a UK public company which now owned 100% of RRAL and which would be the vehicle for a possible public listing in London.

28. Commitments

As at 30 June 2021, the Company had entered into the following commitments:

- Exploration commitments: On-going exploration expenditure is required to maintain title to the Group mineral exploration permits. No provision has been made in the Financial Statements for these amounts as the expenditure is expected to be fulfilled in the normal course of the operations of the Group.
- On 26 June 2015, the Company announced an agreement with Kansai Mining Corporation Ltd, pursuant to which Red Rock's farm in agreement was replaced by agreements, under which any interest in the Migori Gold Project or the other assets of Mid Migori Mines, that may be retained or granted to Mid Migori Mines or Red Rock, would be shared 75% to Red Rock and 25% to Kansai. Kansai's interest was to be carried up the point of an Indicated Mineral Resource of 2m oz of gold. Red Rock was to have full management rights of the operations and of the conduct of legal proceedings on behalf of both Mid Migori Mines and itself. On 15 June 2018, Red Rock announced a revision to this agreement. The effect of the revision is that Kansai exchanged its 25% carried interest under the 2015 agreement for a USD 50,000 payment, leaving Red Rock with a 100% interest. In the event of a renewal or reissue of licenses, covering the relevant assets, the Company will within three months make further payments, subject to such renewal or reissue not being on unduly onerous terms, as follows: (1) USD 2.5 million payable in cash; (2) a USD 1 million promissory note, payable 15 months after issue; and (3) £0.500 million of warrants into Red Rock shares at a price 20% above their average closing price on the three trading days prior to issue. This agreement was further amended on 21 December 2020 through agreement with Kansai to pay USD 1 million, of which USD 0.5 million has been paid on 24 December 2020, and to defer payment of USD 1.5 million until 29 January 2021, at which time the balance could be paid in cash or shares at Kansai's discretion, with any shares to be issued at the closing price of the Company's shares on the 21 of December 2021.
- On 1 March 2021, the Company has paid USD 1,000,000 of the USD 2,500,000 payment obligation by paying USD 1,000,000 in cash and Kansai has elected to receive the balance of USD 1,500,000 in the form of an issue of 101,550,000 new ordinary shares of £0.0001 in the Company ("Shares" and "Share Payment") at a price of £0.0105 per Share to Kansai. The Issue of Shares for the Share Payment is conditional on the approval of Red Rock shareholders and was subsequently approved.
- On 23 November 2021, the Company entered into a new lease agreement for office space with WeWork Aldwych House. The initial lease runs from 1 January 2022 through 30 June 2022 and is non-cancellable during this period. Thereafter, the lease can be terminated by giving one full calendar month notice.

28. Control

There is considered to be no controlling party.
